UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2026

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition Period from _____ to _____

Commission File Number: 814-00235

Rand Capital Corporation
(Exact Name of Registrant as specified in its Charter)

New York (State or other jurisdiction of Incorporation or Organization)	16-0961359 (IRS Employer Identification No.)
14 Lafayette Square, Suite 1405, Buffalo, NY (Address of principal executive offices)	14203 (Zip Code)

(716) 853-0802
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, $0.10 par value	**RAND**	**The Nasdaq Stock Market LLC**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☑ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☑ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☐	Accelerated filer	☐
Non-accelerated filer	☑	Smaller reporting company	☐
		Emerging growth company	☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☑

As of November 4, 2026, there were 2,969,814 shares of the registrant's common stock outstanding.

RAND CAPITAL CORPORATION AND SUBSIDIARIES
TABLE OF CONTENTS FOR FORM 10-Q

RAND CAPITAL CORPORATION AND SUBSIDIARIES
CONSOLIDATED SCHEDULE OF PORTFOLIO INVESTMENTS
September 30, 2026 (Continued)
(Unaudited)

Notes to the Consolidated Schedule of Portfolio Investments

(a)At September 30, 2026, restricted securities represented 100% of the fair value of the investment portfolio. Restricted securities are subject to one or more restrictions on resale and are not freely marketable. Type of investment for equity position is in the form of shares unless otherwise noted as units or interests, i.e., preferred shares or common shares.

(b)The Date Acquired column indicates the date on which Rand Capital Corporation (referred to herein, collectively with its subsidiaries, as "Rand," "we," "us," "our" and the "Corporation") first acquired an investment.

(c)Each equity percentage estimates the Corporation's equity ownership interest in the applicable portfolio investment. The estimated ownership is calculated based on the percent of outstanding voting securities held by the Corporation or the potential percentage of voting securities held by the Corporation upon exercise of warrants or conversion of debentures, or other available data. If applicable, the symbol "<1%" indicates that the Corporation holds an equity interest of less than one percent.

(d)The Corporation's investments are carried at fair value in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 "Fair Value Measurements and Disclosures" ("ASC 820"), which defines fair value and establishes guidelines for measuring fair value. At September 30, 2026, ASC 820 designates 100% of the Corporation's investments as "Level 3" assets. Under the valuation policy of the Corporation, unrestricted publicly traded securities are valued at the closing price for these securities on the last trading day of the reporting period. Restricted securities are subject to restrictions on resale and are valued at fair value as determined in good faith by our external investment advisor Rand Capital Management, LLC ("RCM") and approved by the Board of Directors. Fair value is considered to be the amount that the Corporation may reasonably expect to receive for portfolio securities when sold on the valuation date. Valuations as of any particular date, however, are not necessarily indicative of amounts which may ultimately be realized as a result of future sales or other dispositions of securities and these favorable or unfavorable differences could be material. Among the factors considered in determining the fair value of restricted securities are the financial condition and operating results, projected operations, and other analytical data relating to the investment. Also considered are the market prices for unrestricted securities of the same class (if applicable) and other matters which may have an impact on the value of the portfolio company (see *Note 3—Investments* to the Consolidated Financial Statements).

(e)As of September 30, 2026, the total cost of investment securities was approximately $65.3 million. Net unrealized depreciation was approximately ($8.5) million, which was comprised of $7.6 million of unrealized appreciation of investment securities and ($16.1) million of unrealized depreciation of investment securities. At September 30, 2026, the aggregate gross unrealized gain for federal income tax purposes was approximately $4.9 million and the aggregate gross unrealized loss for federal income tax purposes was ($13.5) million. The net unrealized loss for federal income tax purposes was ($8.5) million based on a tax cost of $66.3 million.

(f)All of the Corporation's portfolio assets are pledged as collateral for purposes of securing the Corporation's senior secured revolving credit facility pursuant to a general security agreement, dated June 27, 2022, between the Corporation, the subsidiaries listed therein, and the Lender (as defined herein).

(g)These investments are non-income producing. All other investments are income producing. Non-income producing investments have not generated cash payments of interest or dividends including LLC tax-related distributions within the last twelve months or are not expected to do so going forward. If a debt or a preferred equity investment fails to make its most recent payment, then the investment will also be classified as non-income producing.

(h)These debt investments are on non-accrual status as of September 30, 2026.

(i)Reduction in cost and fair value from previously reported balances reflects current principal repayment.

(j)Represents interest due (amounts over $100,000) from investments included as interest receivable on the Corporation's Consolidated Statements of Financial Position.

(k)Payment in kind (PIK) represents earned interest that is added to the cost basis of the investment and due at maturity. The amount of PIK earned is included in the interest rate detailed in the "Type of Investment" column, unless it has been noted with a (+), in which case the PIK is in addition to the face amount of interest due on the security.

(l)Non-Control/Non-Affiliate Investments are investments that are neither Control Investments nor Affiliate Investments.

(m)Affiliate Investments are defined by the Investment Company Act of 1940, as amended ("1940 Act"), as those Non-Control Investments in companies in which between 5% and 25% of the voting securities are owned by the Corporation.

(n)Control Investments are defined by the 1940 Act as investments in companies in which more than 25% of the voting securities are owned by the Corporation or where greater than 50% of the board representation is maintained.

(o)Equity holdings are held in a wholly owned (100%) "blocker corporation" subsidiary of Rand Capital Corporation for federal income tax and Regulated Investment Company (RIC) compliance purposes.

(p)Indicates assets that the Corporation believes do not represent "qualifying assets" under Section 55(a) of the 1940 Act. Qualifying assets must represent at least 70% of the Corporation's total assets at the time of acquisition of any additional non-qualifying assets. The Corporation had no investments in non-qualifying assets as of September 30, 2026.

(q)Investments classified as Level 3 for purposes of the fair value determination by RCM and approved by our Board of Directors.

(r)The Corporation's investment in Class A Units is in Caitec Holdings, LLC, which is the parent holding company of Caitec, Inc.

(s)The Corporation's debt investment includes a contingent make-whole fee equal to the greater of (i) 5.0% of enterprise value less aggregate debt of Feature Healthcare, LLC and its subsidiaries, or (ii) $500,000, payable upon the occurrence of certain specified events.

This schedule should be read in conjunction with the Corporation's Consolidated Financial Statements, including the Notes to the Consolidated Financial Statements and the Consolidated Schedule of Portfolio Investments.

(1)Gross additions include increases in the cost basis of investments resulting from new portfolio investments, follow-on investments, capitalized interest and the accretion of discounts. Gross additions also include the movement of an existing portfolio company into this category and out of another category.

(2)Gross reductions include decreases in the cost basis of investments resulting from principal repayments, sales, note conversions, the exchange of existing securities for new securities and the movement of an existing portfolio company out of this category and into another category.

(3)Represents the total amount of interest, fees or dividends credited to income for the portion of the period an investment was included in "Control or Affiliate" categories, respectively.

RAND CAPITAL CORPORATION AND SUBSIDIARIES
CONSOLIDATED SCHEDULE OF PORTFOLIO INVESTMENTS
December 31, 2025 (Continued)

Notes to the Consolidated Schedule of Portfolio Investments

(a)At December 31, 2025, restricted securities represented 100% of the fair value of the investment portfolio. Restricted securities are subject to one or more restrictions on resale and are not freely marketable. Type of investment for equity position is in the form of shares unless otherwise noted as units or interests, i.e., preferred shares or common shares.

(b)The Date Acquired column indicates the date on which the Corporation first acquired an investment.

(c)Each equity percentage estimates the Corporation's ownership interest in the applicable portfolio investment. The estimated ownership is calculated based on the percent of outstanding voting securities held by the Corporation or the potential percentage of voting securities held by the Corporation upon exercise of warrants or conversion of debentures, or other available data. If applicable, the symbol "<1%" indicates that the Corporation holds an equity interest of less than one percent.

(d)The Corporation's investments are carried at fair value in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 "Fair Value Measurements and Disclosures" ("ASC 820"), which defines fair value and establishes guidelines for measuring fair value. At December 31, 2025, ASC 820 designates 100% of the Corporation's investments as "Level 3" assets. Under the valuation policy of the Corporation, unrestricted publicly traded securities are valued at the closing price for these securities on the last trading day of the reporting period. Restricted securities are subject to restrictions on resale and are valued at fair value as determined in good faith by our external investment advisor Rand Capital Management, LLC ("RCM") and approved by our Board of Directors. Fair value is considered to be the amount that the Corporation may reasonably expect to receive for portfolio securities when sold on the valuation date. Valuations as of any particular date, however, are not necessarily indicative of amounts which may ultimately be realized as a result of future sales or other dispositions of securities and these favorable or unfavorable differences could be material. Among the factors considered in determining the fair value of restricted securities are the financial condition and operating results, projected operations, and other analytical data relating to the investment. Also considered are the market prices for unrestricted securities of the same class (if applicable) and other matters which may have an impact on the value of the portfolio company (see *Note 3—Investments* to the Consolidated Financial Statements).

(e)As of December 31, 2025, the total cost of investment securities was approximately $57.1 million. Net unrealized depreciation was approximately ($8.6) million, which was comprised of $6.2 million of unrealized appreciation of investment securities and ($14.8) million of unrealized depreciation of investment securities. At December 31, 2025, the aggregate gross unrealized gain for federal income tax purposes was approximately $4.9 million and the aggregate gross unrealized loss for federal income tax purposes was ($13.5) million. The net unrealized loss for federal income tax purposes was ($8.6) million based on a tax cost of $56.1 million.

(f)All of the Corporation's portfolio assets are pledged as collateral for purposes of securing the Corporation's senior secured revolving credit facility pursuant to a general security agreement, dated June 27, 2022, between the Corporation, the subsidiaries listed therein, and the Lender (as defined herein).

(g)These investments are non-income producing. All other investments are income producing. Non-income producing investments have not generated cash payments of interest or dividends including LLC tax-related distributions within the last twelve months or are not expected to do so going forward. If a debt or a preferred equity investment fails to make its most recent payment, then the investment will also be classified as non-income producing.

(h)These debt investments are on non-accrual status as of December 31, 2025.

(i)Reduction in cost and fair value from previously reported balances reflects current principal repayment.

(j)Represents interest due (amounts over $100,000) from investments included as interest receivable on the Corporation's Consolidated Statements of Financial Position.

(k)Payment in kind (PIK) represents earned interest that is added to the cost basis of the investment and due at maturity. The amount of PIK earned is included in the interest rate detailed in the "Type of Investment" column, unless it has been noted with a (+), in which case the PIK is in addition to the face amount of interest due on the security.

(l)Non-Control/Non-Affiliate Investments are investments that are neither Control Investments nor Affiliate Investments.

(m)Affiliate Investments are defined by the Investment Company Act of 1940, as amended ("1940 Act"), as those Non-Control Investments in companies in which between 5% and 25% of the voting securities are owned by the Corporation.

(n)Control Investments are defined by the 1940 Act as investments in companies in which more than 25% of the voting securities are owned by the Corporation or where greater than 50% of the board representation is maintained.

(o)Equity holdings are held in a wholly owned (100%) "blocker corporation" subsidiary of Rand Capital Corporation for federal income tax and Regulated Investment Company (RIC) compliance purposes.

(p)Indicates assets that the Corporation believes do not represent "qualifying assets" under Section 55(a) of the 1940 Act. Qualifying assets must represent at least 70% of the Corporation's total assets at the time of acquisition of any additional non-qualifying assets. The Corporation had no investments in non-qualifying assets as of December 31, 2025.

(q)Investments classified as Level 3 for purposes of the fair value determination by RCM and approved by our Board of Directors.

RAND CAPITAL CORPORATION AND SUBSIDIARIES
CONSOLIDATED SCHEDULE OF PORTFOLIO INVESTMENTS
December 31, 2025 (Continued)

This schedule should be read in conjunction with the Corporation's Consolidated Financial Statements, including the Notes to the Consolidated Financial Statements and the Consolidated Schedule of Portfolio Investments.

(1)Gross additions include increases in the cost basis of investments resulting from new portfolio investments, follow on investments, capitalized interest and the accretion of discounts. Gross additions also include the movement of an existing portfolio company into this category and out of another category.

(2)Gross reductions include decreases in the cost basis of investments resulting from principal repayments, sales, note conversions, the exchange of existing securities for new securities and the movement of an existing portfolio company out of this category and into another category.

(3)Represents the total amount of interest, fees or dividends credited to income for the portion of the period an investment was included in "Control or Affiliate" categories, respectively.

RAND CAPITAL CORPORATION AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1. ORGANIZATION

Rand Capital Corporation (referred to herein, collectively with its subsidiaries, as "Rand", the "Corporation", "we", "us" and "our") was incorporated under the laws of New York in February 1969. We completed our initial public offering in 1971 and operated as an internally managed, closed end, management investment company from that time until November 2019.

In November 2019, Rand completed a stock sale transaction (the "Closing") with East Asset Management ("East"). The transaction consisted of a $25 million investment in Rand by East, in the form of cash and contributed portfolio assets, in exchange for approximately 8.3 million shares of Rand common stock. East owns approximately 64% of Rand's outstanding common stock at September 30, 2026. Concurrent with the Closing, Rand Capital Management, LLC ("RCM"), a registered investment adviser, was retained by Rand as its external investment adviser and administrator (the Closing and the retention of RCM as our investment adviser and administrator are collectively referred to herein as the "Transaction"). The term of the investment advisory and management agreement (the "Investment Management Agreement") with RCM was extended after approval of its renewal by our Board of Directors (the "Board") in October 2026 and is currently scheduled to expire on December 31, 2027. In addition, the term of the administration agreement (the "Administration Agreement") with RCM was extended after approval of its renewal by the Board in October 2026 and is currently scheduled to expire on December 31, 2027. The Investment Management Agreement and Administration Agreement can continue for successive annual periods after December 31, 2027 provided that such continuance is specifically approved at least annually by (i) (A) the affirmative vote of a majority of the Board or (B) the affirmative vote of a majority of our outstanding voting securities, and (ii) the affirmative vote of a majority of our directors who are not "interested persons," as defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended (the "1940 Act"), of us, RCM or our respective affiliates. Pursuant to the terms of the Investment Management Agreement, Rand pays RCM a base management fee and may pay an incentive fee, if specified benchmarks are met.

In connection with the Closing, we also entered into a shareholder agreement with East (the "Shareholder Agreement"). Pursuant to the terms of the Shareholder Agreement, East has the right to designate two or three persons, depending upon the size of the Board, for nomination for election to the Board. East has the right to designate (i) up to two persons if the size of the Board is composed of fewer than seven directors or (ii) up to three persons if the size of the Board is composed of seven or more directors. East's right to designate persons for nomination for election to the Board under the Shareholder Agreement is the exclusive means by which East may designate or nominate persons for election to the Board. The Board currently consists of five directors, and Adam S. Gusky and Benjamin E. Godley are East's designees on the Board.

We currently operate as an externally managed, closed-end, non-diversified management investment company. We have elected to be regulated as a business development company ("BDC") under the 1940 Act. As a BDC, we are required to comply with certain regulatory requirements specified in the 1940 Act. For instance, we generally have to invest at least 70% of our total assets in "qualifying assets" and provide managerial assistance to the portfolio companies in which we invest. See "Item 1. Business - Regulations, Business Development Company Regulations" in our Annual Report on Form 10-K for the year ended December 31, 2025 (the "2025 10-K").

In connection with the completion of the Transaction, we have shifted to an investment strategy focused on higher yielding debt investments and elected U.S. Federal tax treatment as a regulated investment company ("RIC").

The Board declared the following dividends during the nine months ended September 30, 2026:

Quarter	Dividend/Share Amount	Record Date	Payment Date
1st	$ 0.29	March 11, 2026	March 25, 2026
2nd	$ 0.29	May 27, 2026	June 10, 2026
3rd	$ 0.29	August 26, 2026	September 9, 2026

In order to continue to qualify as a RIC, Rand holds several of its equity investments in wholly-owned subsidiaries that facilitate a tax structure that is advantageous to the RIC election. Rand has the following wholly-owned blocker subsidiaries at September 30, 2026: Rand BMP Swanson Holdings Corp., Rand Carolina Skiff Holdings Corp., Rand DSD Holdings Corp., Rand Filterworks Holdings Corp., Rand FSS Holdings Corp., Rand INEA Holdings Corp., and Rand ITA Holdings Corp. (collectively the "Blocker Corps"). These subsidiaries are consolidated with the Corporation under United States generally accepted accounting principles ("GAAP") for financial reporting purposes.

On November 14, 2025, Rand, RCM and certain of RCM's affiliates were granted a new order for exemptive relief (the "Order") by the U.S. Securities and Exchange Commission (the "SEC") that superseded all prior co-investment exemptive relief orders issued to Rand and its affiliates by the SEC. The Order permits Rand to co-invest in portfolio companies with certain of RCM's affiliates if such co-investments are done on the same terms and at the same time, as further detailed in the Order. The Order requires that a "required majority" (as defined in Section 57(o) of the 1940 Act) of the Board make certain findings (1) in most instances when Rand co-invests with RCM's affiliates in an issuer where RCM's affiliates have an existing investment in the issuer, and (2) if Rand disposes of an investment acquired in a co-investment transaction unless the disposition is done on a pro rata basis. Pursuant to the Order, the Board oversees Rand's participation in the co-investment program. As required by the Order, Rand has adopted policies and procedures reasonably designed to ensure compliance with the terms of the Order, and RCM's and Rand's Chief Compliance Officers provide reporting to the Board regarding compliance with such policies and procedures.

The accompanying consolidated financial statements describe the operations of Rand and its wholly-owned subsidiaries, Rand Capital Sub, LLC ("Rand Sub") and the Blocker Corps.

Our corporate office is located in Buffalo, NY and our website address is www.randcapital.com. We make available on our website our annual and quarterly reports, proxy statements and other information as soon as reasonably practicable after such material is filed with the SEC. Our shares are traded on the Nasdaq Capital Market under the symbol "RAND."

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation **–** It is our opinion that the accompanying consolidated financial statements include all adjustments of a normal recurring nature necessary for a fair presentation in accordance with GAAP of the consolidated financial position, results of operations, cash flows and statement of changes in net assets for the interim periods presented. The Corporation is an investment company following accounting and reporting guidance in Accounting Standards Codification ("ASC") 946, *Financial Services—Investment Companies*. Certain information and note disclosures normally included in audited annual consolidated financial statements prepared in accordance with GAAP have been omitted; however, we believe that the disclosures made are adequate to make the information presented herein not misleading. The interim results for the nine months ended September 30, 2026 are not necessarily indicative of the results to be expected for the full year.

These statements should be read in conjunction with the consolidated financial statements and the notes included in the 2025 10-K. Information contained in this filing should also be reviewed in conjunction with our related filings with the SEC prior to the date of this report.

Principles of Consolidation - The consolidated financial statements include the accounts of Rand and its wholly-owned subsidiaries, Rand Sub and the Blocker Corps. All intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents **–** Cash represents cash on hand and demand deposits held at financial institutions. Cash equivalents include short-term highly liquid investments of sufficient credit quality that are readily convertible to known amounts of cash and have original maturities of three months or less. Cash may be held in a money market fund from time to time, which is a Level 1 security. Cash equivalents are carried at cost, plus accrued interest, which approximates fair value. Cash equivalents are held to meet short-term liquidity requirements, rather than for investment purposes. As of September 30, 2026 and December 31, 2025, the Corporation had $3,416 and $3,726,668, respectively, of cash equivalents invested in money market funds. Cash and cash equivalents are held at major financial institutions and are subject to credit risk to the extent those balances exceed applicable Federal Deposit Insurance Corporation (FDIC) or Securities Investor Protection Corporation (SIPC) limitations.

Fair Value of Financial Instruments – The carrying amounts reported in the consolidated statement of financial position of cash and cash equivalents, interest receivable, accounts payable and accrued expenses approximate fair value because of the immediate or short-term nature of these financial instruments.

Investment Classification **–** In accordance with the provisions of the 1940 Act, the Corporation classifies its investments by level of control. Under the 1940 Act, "Control Investments" are investments in companies that the Corporation is deemed to "Control" if it owns more than 25% of the voting securities of the company or has greater than 50% representation on the company's board of directors or other similar governing body. "Affiliate Investments" are companies in which the Corporation owns between 5% and 25% of the voting securities of the company. "Non-Control/Non-Affiliate Investments" are those companies that are neither Control Investments nor Affiliate Investments.

Investments - Investments are valued at fair value as determined in good faith by RCM and approved by the Board. The Corporation generally invests in loan, debt, and equity instruments and there is no single standard for determining fair value of these investments. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio company while employing a consistent valuation process. Due to the inherent uncertainty of determining the fair value of

portfolio investments, there may be material risks associated with this determination including that estimated fair values may differ from the values that would have been used had a readily available market value for the investments existed and these differences could be material if the Corporation's assumptions and judgments differ from results of actual liquidation events. The Corporation analyzes and values each investment quarterly and records unrealized depreciation for an investment that it believes has become impaired, including where collection of a loan or debt security or realization of the recorded value of an equity security is doubtful. Conversely, the Corporation will record unrealized appreciation if it believes that an underlying portfolio company has appreciated in value and, therefore, the Corporation's equity securities in the underlying portfolio company have also appreciated in value. Additionally, the Corporation continues to assess any material risks associated with this fair value determination, including risks associated with material conflicts of interest. Under the valuation policy of the Corporation, unrestricted publicly traded securities are valued at the closing price for these securities on the last trading day of the reporting period.

Qualifying Assets - As of September 30, 2026, the Corporation's portfolio of investments only included qualifying assets as defined in Section 55(a) of the 1940 Act. The Corporation's qualifying assets consist of qualifying investments in privately held businesses, principally based in the United States.

Revenue Recognition - Interest Income - Interest income is recognized on the accrual basis except where the investment is in default or where receipt of such interest is otherwise presumed to be in doubt. In such cases, interest is recognized at the time of receipt. A reserve for possible losses on interest receivable is maintained when appropriate. The reserve for possible losses of interest receivable was $25,337 as of September 30, 2026 and as of December 31, 2025.

The Corporation holds debt securities in its investment portfolio that contain payment-in-kind ("PIK") interest provisions. PIK interest, computed at the contractual rate specified in each debt agreement, is added to the principal balance of the debt and is recorded as interest income. Thus, the actual collection of this interest may be deferred until the time of debt principal repayment. For investments with PIK interest, the Corporation will not accrue PIK interest if the portfolio company valuation indicates that the PIK interest is not collectible. Loans that are on non-accrual status remain in such status until the borrower has demonstrated the ability and intent to pay contractual amounts due or such loans become current. As of September 30, 2026, four of the Corporation's debt investments were on non-accrual status with a total cost of investment securities of $20.7 million and an aggregate fair value of $8.7 million, which represented 31.7% and 15.3% of the Corporation's investment portfolio, respectively. As of December 31, 2025, three of the Corporation's debt investments were on non-accrual status with a total cost of investment securities of $16.3 million and an aggregate fair value of $6.7 million, which represented 28.6% and 13.7% of the Corporation's investment portfolio, respectively. For the nine months ended September 30, 2026 and 2025, 11.6% and 35.5%, respectively, of the Corporation's total investment income was attributable to non-cash PIK interest income.

Revenue Recognition - Dividend Income – The Corporation may receive cash distributions from portfolio companies that are limited liability companies or corporations, and these distributions are classified as dividend income on the consolidated statement of operations. Dividend income is recognized on an accrual basis for private portfolio companies only upon declaration or when a contractual obligation arises and the amount is reasonably determinable, or on the ex-dividend date for publicly traded portfolio companies.

The Corporation may hold preferred equity securities that contain cumulative dividend provisions. Cumulative dividends are recorded as dividend income, if declared and deemed collectible, and any dividends in arrears are recognized into income and added to the balance of the preferred equity investment. The actual collection of these dividends in arrears may be deferred until such time as the preferred equity is redeemed.

Revenue Recognition - Fee Income - Consists of the revenue associated with the amortization of financing fees charged to the portfolio companies upon successful closing of financings, income associated with portfolio company monitoring fees, income associated with early repayment fees and income associated with portfolio company loan modification fees.

Realized Gain or Loss and Unrealized Appreciation or Depreciation of Investments - Amounts reported as realized gains and losses are measured by the difference between the proceeds from the sale or exchange and the cost basis of the investment without regard to unrealized gains or losses recorded in prior periods. The cost of securities that have, in management's judgment, become worthless are written off and reported as realized losses when appropriate. Unrealized appreciation or depreciation reflects the difference between the fair value of the investments and the cost basis of the investments.

Original Issue Discount – Investments may include "original issue discount", or OID. This occurs when the Corporation purchases a warrant and a note from a portfolio company simultaneously, which requires an allocation of a portion of the purchase price to the warrant and reduces the purchase price allocated to the note by an equal amount in the form of a note discount or OID. The note is reported net of the OID and the OID is accreted into interest income over the life of the loan.

Deferred Financing Fees - Origination and commitment costs related to the senior secured revolving credit facility with M&T Bank, (See *Note 6—Senior Secured Revolving Credit Facility*), are amortized ratably over the term of the Credit Agreement.

Net Assets per Share - Net assets per share are based on the number of shares of common stock outstanding. There are no common stock equivalents outstanding.

Supplemental Cash Flow Information - Net income taxes paid during the nine months ended September 30, 2026 and 2025 were $28,731 and $17,370, respectively. Interest paid during the nine months ended September 30, 2026 and 2025 was $175,596 and $73,567, respectively.

Accounting Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Stockholders' Equity (Net Assets) - At September 30, 2026 and December 31, 2025, there were 500,000 shares of $10.00 par value preferred stock authorized and unissued.

On April 22, 2026, the Board approved a share repurchase plan which authorizes the Corporation to repurchase shares of its outstanding common stock with an aggregate cost of up to $1,500,000 at prices per share of common stock no greater than the then current net asset value. This share repurchase authorization is in effect through April 22, 2027, and replaces the share repurchase authorization that was previously approved by the Board in May 2025. No shares of common stock were repurchased by the Corporation during the nine months ended September 30, 2026 or the nine months ended September 30, 2025.

Segment Reporting - In accordance with ASC Topic 280 - Segment Reporting ("ASC 280"), the Corporation has determined that it has a single operating and reporting segment. As a result, the Corporation's segment accounting policies are the same as described herein and the Corporation does not have any intra-segment sales and transfers of assets.

Income Taxes – The Corporation elected to be treated, for U.S. federal income tax purposes, as a RIC under Subchapter M of the Code. The Corporation must distribute substantially all of its investment company taxable income each tax year as dividends to its shareholders to maintain its RIC status. If the Corporation continues to qualify as a RIC and continues to satisfy the annual distribution requirement, the Corporation will not have to pay corporate level U.S. federal income taxes on any income that the Corporation distributes to its stockholders.

The Blocker Corps, which are consolidated under U.S. GAAP for financial reporting purposes, are subject to U.S. federal and state income taxes. Therefore, the Corporation accounts for income taxes pursuant to FASB ASC Topic 740, *Income Taxes*. Under FASB ASC Topic 740, deferred tax assets and liabilities are determined based on temporary differences between the bases of certain assets and liabilities for income tax and financial reporting purposes. The Corporation records a valuation allowance against the deferred tax assets if and to the extent it is more likely than not that the Corporation will not recover the deferred tax assets. In evaluating the need for a valuation allowance, the Corporation weights all relevant positive and negative evidence, and considers among other factors, historical financial performance, projected future taxable income, scheduled reversals of deferred tax liabilities, the overall business environment, and tax planning strategies. Changes in circumstances, including the Blocker Corps generating significant taxable income and tax planning strategies, could cause a change in judgment about the need for a valuation allowance of the related deferred tax assets. Any change in the valuation allowance will be included in income in the period of the change in estimate.

Accordingly, as of September 30, 2026 and December 31, 2025, the valuation allowance against the Corporation's deferred tax assets was $337,331 and $343,270, respectively.

The Corporation reviews the tax positions it has taken to determine if they meet a "more likely than not threshold" for the benefit of the tax position to be recognized in the consolidated financial statements. A tax position that fails to meet the more likely than not recognition threshold will result in either a reduction of a current or deferred tax asset or receivable, or the recording of a current or deferred tax liability. There were no uncertain tax positions recorded at September 30, 2026 or December 31, 2025.

Depending on the level of taxable income earned in a tax year, the Corporation may choose to carry forward taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Corporation determines that its estimated current year taxable income will be in excess of estimated dividend distributions for the current year from such income, the Corporation accrues excise tax, if any, on estimated excess taxable income as such taxable income is earned. The Corporation did not incur any federal excise tax expense during the nine months ended September 30, 2026 or 2025.

Distributions from net investment income and distributions from net realized capital gains are determined in accordance with U.S. federal tax regulations, which may differ from amounts determined in accordance with GAAP and those differences could be material. These book-to-tax differences are either temporary or permanent in nature. Reclassifications due to permanent book-tax differences, including the offset of net operating losses against short-term gains and nondeductible meals and entertainment, have no impact on net assets.

The Corporation is currently open to audit under the statute of limitations by the Internal Revenue Service for the years ended December 31, 2022 through 2025. In general, the Corporation's state income tax returns are open to audit under the statute of limitations for the years ended December 31, 2022 through 2025.

It is the Corporation's policy to include interest and penalties related to income tax liabilities in income tax expense on the Consolidated Statement of Operations. The Corporation recognized ($1,331) and $34 in penalties and interest (income) expense during nine months ended September 30, 2026 and 2025, respectively.

Concentration of Credit and Market Risk – The Corporation's financial instruments potentially subject it to concentrations of credit risk. Cash and cash equivalents are invested with banks in amounts which, at times, exceed insured limits. The Corporation does not anticipate non-performance by such banks.

The following are the concentrations of the top five portfolio company values compared to the fair value of the Corporation's total investment portfolio:

	September 30, 2026
Inter-National Electronic Alloys LLC (EFINEA)	10%
Caitec, Inc. (Caitec)	9%
Feature Healthcare, LLC (4 Seasons)	8%
Highland All About People Holdings, Inc. (All About People)	8%
BMP Food Service Supply Holdco, LLC (FSS)	8%

	December 31, 2025
EFINEA	11%
Caitec	10%
FCM Industries Holdco LLC (First Coast Mulch)	8%
All About People	8%
FSS	8%

Note 3. INVESTMENTS

The Corporation's investments are carried at fair value in accordance with FASB ASC 820, "Fair Value Measurements and Disclosures", which defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements.

Loan investments are defined as traditional loan financings typically with no equity features or required equity co-investment. Debt investments are defined as debt financings that include one or more equity features such as conversion rights, stock purchase warrants, and/or stock purchase options. Equity investments are direct investments into a portfolio company and may include preferred stock, common stock, warrants and limited liability company membership interests.

The Corporation uses several approaches to determine the fair value of an investment. The main approaches are:

- Loan and debt securities are generally valued at cost when representative of the fair value of the investment or sufficient assets or liquidation proceeds are expected to exist from a sale of a portfolio company at its estimated fair value. The valuation may also consider the carrying interest rate versus the related inherent portfolio risk of the investment. A loan or

debt instrument may be reduced in value if it is judged to be of poor quality, collection is in doubt or insufficient liquidation proceeds exist.

- Equity securities may be valued using the:
  - *Cost approach* - The cost approach uses estimates of the liquidation value of the portfolio company's assets in relation to the cost of the respective security. This approach values the equity at the value remaining after the portfolio company pays off its debt and loan balances and its outstanding liabilities.
  - *Market approach* - The market approach uses observable prices and other relevant information generated by similar market transactions. It may include both private and public M&A transactions where the traded price is a multiple of EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) or another relevant operating metric. It may also include the market value of comparable public companies that are trading in an active market, or the use of market multiples derived from a set of comparables to assist in pricing the investment. Additionally, the Corporation adjusts valuations if a subsequent significant equity financing has occurred that includes a meaningful portion of the financing by a sophisticated, unrelated new investor.
  - *Income approach* - The income approach employs valuation techniques to convert future benefits or costs, usually in the form of cash flows, into a present value amount. The measurement is based on value indicated by current market expectations about those future amounts.

ASC 820 classifies the inputs used to measure fair value into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities, used in the Corporation's valuation at the measurement date. Under the valuation policy, the Corporation values unrestricted publicly traded companies, categorized as Level 1 investments, at the closing price on the last trading day of the reporting period.

Level 2: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3: Unobservable and significant inputs to determining the fair value.

Financial assets are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Any changes in estimated fair value are recorded in the statement of operations.

At September 30, 2026 and December 31, 2025, all of the Corporation's investments were Level 3 investments. There were no Level 1 or Level 2 investments at September 30, 2026 or December 31, 2025.

In the valuation process, the Corporation values restricted securities categorized as Level 3 investments, using information from these portfolio companies, and, when considered appropriate, third-party valuation inputs, which may include:

- Audited and unaudited statements of operations, balance sheets and operating budgets;
- Current and projected financial, operational and technological developments of the portfolio company;
- Current and projected ability of the portfolio company to service its debt obligations;
- The current capital structure of the business and the seniority of the various classes of equity if a deemed liquidation event were to occur;
- Pending debt or capital restructuring of the portfolio company;
- Current information regarding any offers to purchase the investment, or recent financing transactions;
- Current ability of the portfolio company to raise additional financing if needed;
- Changes in the economic environment which may have a material impact on the operating results of the portfolio company;
- Internal circumstances and events that may have an impact (both positive and negative) on the operating performance of the portfolio company;
- Qualitative assessment of key management;
- Contractual rights, obligations or restrictions associated with the investment; and
- Other factors deemed relevant to assess valuation.

The valuation may be reduced if a portfolio company's performance and potential have deteriorated significantly. If the factors that led to a reduction in valuation are overcome, the valuation may be adjusted accordingly.

Equity Securities

Equity securities may include preferred stock, common stock, warrants and limited liability company membership interests.

The significant unobservable inputs used in the fair value measurement of the Corporation's equity investments are EBITDA and revenue multiples, where applicable, the financial and operational performance of the business, and the debt and senior equity preferences that may exist in a deemed liquidation event. Standard industry multiples may be used when available; however, the Corporation's portfolio companies are typically privately-held, lower middle market companies and these industry standards may be adjusted to more closely match the specific financial and operational characteristics of the portfolio company. Due to the nature of certain investments, fair value measurements may be based on other criteria, which may include third-party appraisals. Significant changes in any of these unobservable inputs may result in a significantly higher or lower fair value estimate.

Another key factor used in valuing equity investments is a significant recent arm's-length equity transaction entered into by the portfolio company with a sophisticated, non-strategic, and unrelated new investor. The terms of these equity transactions may not be identical to the equity transactions between the portfolio company and the Corporation, and the impact of the difference in transaction terms on the market value of the portfolio company may be difficult or impossible to quantify.

When appropriate, the Black-Scholes pricing model is used to estimate the fair value of warrants for accounting purposes. This model requires the use of highly subjective inputs including expected volatility and expected life, in addition to variables for the valuation of minority equity positions in small private and early-stage companies. Significant changes in any of these unobservable inputs may result in a significantly higher or lower fair value estimate.

For investments made within the last year, the Corporation generally relies on the cost basis, which is deemed to represent the fair value, unless other fair value inputs are identified causing the Corporation to depart from this basis.

Loan and Debt Securities

The significant unobservable inputs used in the fair value measurement of the Corporation's loan and debt securities are the financial and operational performance of the portfolio company, similar debt with similar terms with other portfolio companies, as well as the market acceptance for the portfolio company's products or services. These inputs will likely provide an indicator as to the probability of principal recovery of the investment. The Corporation's loan and debt investments are often junior secured or unsecured securities. Fair value may also be determined based on other criteria where appropriate. Significant changes to the unobservable inputs may result in a change in fair value. For recent investments, the Corporation generally relies on the cost basis, which is deemed to represent the fair value, unless other fair value inputs are identified causing the Corporation to depart from this basis.

The following table provides a summary of the significant unobservable inputs used to determine the fair value of the Corporation's Level 3 portfolio investments as of September 30, 2026:

Investment Type	Market Approach EBITDA Multiple	Market Approach Liquidation Seniority	Market Approach Revenue Multiple	Market Approach Transaction Pricing	Totals
Non-Control/Non-Affiliate Equity	$ 4,100,000	$ —	$ 1,401,940	$ 38	$ 5,501,978

Note 4. OTHER ASSETS

At September 30, 2026 and December 31, 2025, other assets was comprised of the following:

	September 30, 2026	December 31, 2025
Accounts receivable	**$ 60,929**	$ —
Prepaid expenses	**52,658**	16,748
Deferred financing fees, net	**18,750**	37,500
Total other assets		54,248
	$ 132,337	$

Note 5. COMMITMENTS AND CONTINGENCIES

The Corporation had no commitments or contingencies at September 30, 2026 or December 31, 2025.

Note 6. SENIOR SECURED REVOLVING CREDIT FACILITY

On June 27, 2022, the Corporation entered into a credit agreement (the "Credit Agreement") with M&T Bank, as lender (the "Lender"), which provides the Corporation with a senior secured revolving credit facility in a principal amount not to exceed $25.0 million (the "Credit Facility"). The amount the Corporation can borrow, at any given time, under the Credit Facility is tied to a borrowing base, which is measured as (i) 75% of the aggregate sum of the fair market values of the publicly traded equity securities held (other than shares of ACV Auctions, if any) plus (ii) the least of (a) 75% of the fair market value of the shares of ACV Auctions held, if any, (b) $6.25 million and (c) 25% of the aggregate borrowing base availability for the Credit Facility at any date of determination plus (iii) 50% of the aggregate sum of the fair market values of eligible private loans held that meet specified criteria plus (iv) the lesser of (a) 50% of the aggregate sum of the fair market values of unsecured private loans held that meet specified criteria and (b) $1.25 million minus (v) such reserves as the Lender may establish from time to time in its sole discretion. As of September 30, 2026, the Corporation did not own any publicly traded equity securities or any shares of ACV Auctions. The Credit Facility has a maturity date of June 27, 2027. Under the borrowing base formula described above, the unused line of credit balance for the Credit Facility was approximately $12.4 million at September 30, 2026.

The Corporation's borrowings under the Credit Facility bear interest at a variable rate determined as a rate per annum equal to 3.50 percentage points above the greater of (i) the applicable daily simple secured overnight financing rate (SOFR) or (ii) 0.25%. At September 30, 2026, the Corporation's applicable interest rate was 7.40%. In addition, under the terms of the Credit Facility, the Corporation has also agreed to pay the Lender an unused commitment fee on a quarterly basis, computed as 0.30% multiplied by the average daily Unused Commitment Fee Base (which is defined as the difference between (i) $25.0 million and (ii) the sum of the aggregate principal amount of the Corporation's outstanding borrowings under the Credit Facility) for the preceding quarter. The unused commitment fee related to the Credit Facility during the three and nine months ended September 30, 2026 was $15,493 and $50,978, respectively. The unused commitment fee related to the Credit Facility during the three and nine months ended September 30, 2025 was $19,167 and $56,623, respectively. Unused commitment fees are recorded as interest expense on the Consolidated Statements of Operations.

The Credit Agreement contains representations and warranties and affirmative, negative and financial covenants usual and customary for agreements of this type, including among others, covenants that prohibit, subject to certain specified exceptions, the Corporation's ability to merge or consolidate with other companies, sell any material part of the Corporation's assets, incur other indebtedness, incur liens on the Corporation's assets, make investments or loans to third parties other than permitted investments and permitted loans, and declare any distribution or dividend other than certain permitted distributions. The Credit Agreement includes the following financial covenants: (i) a tangible net worth covenant that requires the Corporation to maintain a Tangible Net Worth (defined in the Credit Agreement as the Corporation's aggregate assets, excluding intangible assets, less all liabilities) of not less than $50.0 million, which is measured quarterly at the end of each fiscal quarter, (ii) an asset coverage ratio covenant that requires the Corporation to maintain an Asset Coverage Ratio (defined in the Credit Agreement as the ratio of the fair market value of all of the Corporation's assets to the sum of all of the Corporation's obligations for borrowed money plus all capital lease obligations) of not less than 3:1, which is measured quarterly at the end of each fiscal quarter and (iii) an interest coverage ratio covenant that requires the Corporation to maintain an Interest Coverage Ratio (defined in the Credit Agreement as the ratio of Cash Flow (as defined in the Credit Agreement) to Interest Expense (as defined in the Credit Agreement)) of not less than 2.5:1, which is measured quarterly on a trailing twelve-months basis. As of September 30, 2026, the Corporation was in compliance with these covenants.

Events of default under the Credit Agreement which permit the Lender to exercise its remedies, including acceleration of the principal and interest on the Credit Facility, include, among others: (i) default in the payment of principal or interest on the Credit

Facility, (ii) default by the Corporation on any other obligation, condition, covenant or other provision under the Credit Agreement and related documents, (iii) failure by the Corporation to pay any material indebtedness or obligation owing to any third party or affiliate, or the failure by the Corporation to perform any agreement with any third party or affiliate that would have a material adverse effect on the Corporation and its subsidiaries taken as a whole, (iv) the sale of all or substantially all of the Corporation's assets to a third party, (v) various bankruptcy and insolvency events, and (vi) any material adverse change in the Corporation and its subsidiaries, taken as a whole, or their business, assets, operations, management, ownership, affairs, condition (financial or otherwise) or the Lender's collateral that the Lender reasonably determines will have a material adverse effect on the Lender's collateral, the Corporation and its subsidiaries, taken as a whole, or their business, assets, operation or condition (financial or otherwise) or on the Corporation's ability to repay its debts.

In connection with entry into the Credit Facility, the Corporation and each of its subsidiaries that guaranty the Credit Facility entered into a general security agreement, dated June 27, 2022, with the Lender (the "Security Agreement"). The Security Agreement secures all of the Corporation's obligations to the Lender, including, without limitation, principal and interest on the Credit Facility and any fees and charges. The security interest granted under the Security Agreement covers all of the Corporation's personal property including, among other things, all accounts, chattel paper, investment property, deposit accounts, general intangibles, inventory, and all of the fixtures. The Security Agreement contains various representations, warranties, covenants and agreements customary in security agreements and various events of default with remedies under the New York Uniform Commercial Code and the Security Agreement. Events of default under the Security Agreement, which permit the Lender to exercise its various remedies, are similar to those contained in the Credit Agreement.

The outstanding balance drawn on the Credit Facility at September 30, 2026 and December 31, 2025 was $5.0 million and $0, respectively. The unamortized closing fee was $18,750 and $37,500 as of September 30, 2026 and December 31, 2025, respectively, and it is recorded in Other Assets on the Consolidated Statements of Financial Position. Amortization expense related to the Credit Facility during the three and nine months ended September 30, 2026 was $6,250 and $18,750, respectively. Amortization expense related to the Credit Facility during the three and nine months ended September 30, 2025 was $6,250 and $18,750, respectively.

For the three and nine months ended September 30, 2026 and 2025, the average debt outstanding under the Credit Facility and weighted average interest rate were as follows:

	Three months ended September 30, 2026	Three months ended September 30, 2025	Nine months ended September 30, 2026	Nine months ended September 30, 2025
Average debt outstanding	$ 4,846,739	$ —	$ 2,647,253	$ 200,000
Weighted average interest rate	7.38 %	N/A	7.25 %	7.88 %

Note 7. CHANGES IN STOCKHOLDERS' EQUITY (NET ASSETS)

The following schedule analyzes the changes in stockholders' equity (net assets) section of the Consolidated Statements of Financial Position for the three and nine months ended September 30, 2026 and 2025, respectively:

	Common Stock	Capital in excess of par value	Stock dividends distributable	Treasury Stock, at cost	Total distributable earnings (losses)	Total Stockholders' Equity (Net Assets)
July 1, 2026	$ 303,771	$ 64,063,157	$ —	$ (1,566,605)	$ (11,340,436)	$ 51,459,887
Payment of dividend	—	—	—	—	(861,246)	(861,246)
Net increase in net assets from operations	—	—	—	—	944,398	944,398

Note 8. RELATED PARTY TRANSACTIONS

Investment Management Agreement

Concurrent with the Closing, RCM, a registered investment adviser, was retained by the Corporation as its external investment adviser and administrator, which resulted in Daniel Penberthy, the Corporation's President and Chief Executive Officer, and Margaret Brechtel, the Corporation's Executive Vice President, Treasurer, Chief Financial Officer and Secretary, serving as officers and employees of RCM. Under the Investment Management Agreement, the Corporation pays RCM, as compensation for the investment advisory and management services, fees consisting of two components: (i) the Base Management Fee and (ii) the Incentive Fee.

At September 30, 2026 and December 31, 2025, amounts payable to RCM were comprised of the following, and are reported on the "Due to investment adviser" line on the Consolidated Statements of Financial Position:

	September 30, 2026	December 31, 2025
Base Management Fee payable	**$ 214,969**	$ 176,391
Income Based Incentive Fees payable	**340,596**	342,896
Total due to investment adviser	**$ 555,565**	$ 519,287

The "Base Management Fee" is calculated at an annual rate of 1.50% of the Corporation's total assets (other than cash and cash equivalents but including assets purchased with borrowed funds). For the three and nine months ended September 30, 2026, the Base Management Fees earned by RCM were $214,969 and $609,817, respectively. For the three and nine months ended September 30, 2025, the Base Management Fees earned by RCM were $184,382 and $654,239, respectively. As of September 30, 2026 and December 31, 2025, the Corporation had $214,969 and $176,391, respectively, payable for the Base Management Fees, and it is included in the "Due to investment adviser" line on the Corporation's Consolidated Statements of Financial Position.

The "Incentive Fee" is comprised of two parts: (1) the "Income Based Fee" and (2) the "Capital Gains Fee". The Income Based Fee is calculated and payable quarterly in arrears based on the "Pre-Incentive Fee Net Investment Income" (as defined in the Investment Management Agreement) for the immediately preceding calendar quarter, subject to a hurdle rate of 1.75% per quarter (7% annualized) and is payable promptly following the filing of the Corporation's financial statements for such quarter, to the extent the Income Based Fee exceeds Accrued Unpaid Income.

The Corporation pays RCM an Incentive Fee with respect to its Pre-Incentive Fee Net Investment Income in each calendar quarter as follows:

(i)no Income Based Fee in any quarter in which the Pre-Incentive Fee Net Investment Income for such quarter does not exceed the hurdle rate of 1.75% (7.00% annualized);

(ii)100% of the Pre-Incentive Fee Net Investment Income for any calendar quarter with respect to that portion of the Pre-Incentive Fee Net Investment Income for such calendar quarter, if any, that exceeds the hurdle rate of 1.75% (7.00% annualized) but is less than 2.1875% (8.75% annualized); and

(iii)20% of the amount of the Pre-Incentive Fee Net Investment Income for any calendar quarter with respect to that portion of the Pre-Incentive Fee Net Investment Income for such calendar quarter, if any, that exceeds 2.1875% (8.75% annualized).

The Income Based Fee paid to RCM for any calendar quarter shall not be in excess of the Incentive Fee Cap. The "Incentive Fee Cap" for any quarter is an amount equal to (1) 20.0% of the Cumulative Net Return (as defined below) during the relevant Income Based Fee Calculation Period (as defined below) minus (2) the aggregate Income Based Fee that was paid in respect of the calendar quarters included in the relevant Income Based Fee Calculation Period.

For purposes of the calculation of the Income Based Fee, "Income Based Fee Calculation Period" is defined as, with reference to a calendar quarter, the period of time consisting of such calendar quarter and the additional quarters that comprise the eleven calendar quarters immediately preceding such calendar quarter.

For purposes of the calculation of the Income Based Fee, "Cumulative Net Return" is defined as (1) the aggregate net investment income in respect of the relevant Income Based Fee Calculation Period minus (2) any Net Capital Loss, if any, in respect of the relevant Income Based Fee Calculation Period. If, in any quarter, the Incentive Fee Cap is zero or a negative value, the Corporation pays no Income Based Fee to RCM for such quarter. If, in any quarter, the Incentive Fee Cap for such quarter is a positive value but is less than the Income Based Fee that is payable to RCM for such quarter (before giving effect to the Incentive Fee Cap) calculated as described above, the Corporation pays an Income Based Fee to RCM equal to the Incentive Fee Cap for such quarter. If, in any quarter, the Incentive Fee Cap for such quarter is equal to or greater than the Income Based Fee that is payable to RCM for such quarter (before giving effect to the Incentive Fee Cap) calculated as described above, the Corporation pays an Income Based Fee to the Adviser equal to the Income Based Fee calculated as described above for such quarter without regard to the Incentive Fee Cap.

For purposes of the calculation of the Income Based Fee, "Net Capital Loss," in respect of a particular period, means the difference, if positive, between (1) aggregate capital losses, whether realized or unrealized, in such period and (2) aggregate capital gains, whether realized or unrealized, in such period.

Any Income Based Fee otherwise payable under the Investment Management Agreement with respect to Accrued Unpaid Income (as described below) (such fees being the "Accrued Unpaid Income Based Fees") shall be deferred, on a security by security basis, and shall become payable to RCM only if, as, when and to the extent cash is received in respect of any Accrued Unpaid Income. Any Accrued Unpaid Income that is subsequently reversed in connection with a write-down, write-off, impairment or similar treatment of the investment giving rise to such Accrued Unpaid Income will, in the applicable period of reversal, (1) reduce Pre-Incentive Fee Net Investment Income and (2) reduce the amount of Accrued Unpaid Income Based Fees. For purposes of the Investment Management Agreement, Accrued Unpaid Income is defined as any net investment income that consists of any accretion of original issue discount, market discount, payment-in-kind interest, payment-in-kind dividends or other types of deferred or accrued income, including in connection with zero coupon securities, that the Corporation has recognized in accordance with GAAP, but has not yet received in cash. Subsequent payments of Accrued Unpaid Income Based Fees that are deferred as provided for in the Investment Management Agreement shall not reduce the amounts otherwise payable for any quarter as an Income Based Fee.

For the three and nine months ended September 30, 2026, the income based incentive fee benefit was ($2,300), which represented a reversal of a previously accrued Income Based Fee associated with an investment that was written off during the three months ended September 30, 2026. For the three and nine months ended September 30, 2025, the Income Based Fees earned under the Investment Management Agreement were $66,505 and $186,178, respectively. As of September 30, 2026, the cumulative accrued Income Based Fee payable was $340,596, and as no Accrued Unpaid Income Based Fees received in cash during the prior quarter by the Corporation, none of the accrued Income Based Fees became payable to RCM as of the end of such quarter. As of December 31, 2025, the cumulative accrued Income Based Fee payable was $342,896.

The second part of the Incentive Fee is the "Capital Gains Fee". This fee is determined and payable in arrears as of the end of each calendar year. Under the terms of the Investment Management Agreement, the Capital Gains Fee is calculated at the end of each applicable year by subtracting (1) the sum of the cumulative aggregate realized capital losses and aggregate unrealized capital depreciation from (2) the cumulative aggregate realized capital gains, in each case calculated from November 8, 2019. If this amount is positive at the end of any calendar year, then the Capital Gains Fee for such year is equal to 20.0% of such amount, less the cumulative aggregate amount of Capital Gains Fees paid in all prior years. If such amount is negative, then there is no Capital Gains Fee payable for that calendar year. If the Investment Management Agreement is terminated as of a date that is not a calendar year end, the termination date shall be treated as though it were a calendar year end for purposes of calculating and paying the Capital Gains Fee.

For purposes of the Capital Gains Fee:

- The cumulative aggregate realized capital gains are calculated as the sum of the differences, if positive, between (a) the net sales price of each investment in the Corporation's portfolio when sold minus (b) the accreted or amortized cost basis of such investment.
- The cumulative aggregate realized capital losses are calculated as the sum of the amounts by which (a) the net sales price of each investment in the portfolio when sold is less than (b) the accreted or amortized cost basis of such investment.
- The aggregate unrealized capital depreciation is calculated as the sum of the amount, if negative, between (a) the valuation of each investment in the portfolio as of the applicable Capital Gains Fee calculation date minus (b) the accreted or amortized cost basis of such investment.

For purposes of calculating the amount of the capital gains incentive fee accrual to be included as part of a company's financial statements, GAAP requires a company to consider, as part of such calculation, the amount of cumulative aggregate unrealized capital appreciation that such company has with respect to its investments. As a result, the capital gains incentive fee accrual under GAAP is calculated using both the cumulative aggregate realized capital gains and losses and the aggregate net change in unrealized capital appreciation/depreciation at the close of the period. If the calculated amount is positive, GAAP requires the Corporation to record a capital gains incentive fee accrual equal to 20% of this cumulative amount, less the aggregate amount of actual capital gains incentive fees paid, or capital gains incentive fees accrued under GAAP, for all prior periods. However, unrealized capital appreciation is not used by the Corporation as part of the calculation to determine the amount of the Capital Gains Fee actually payable to RCM under the terms of the Investment Management Agreement. There can be no assurances that such unrealized capital appreciation will be realized in the future.

As of September 30, 2026, there was no Capital Gains Fee currently payable under the terms of the Investment Management Agreement, which is subject to change based on subsequent realized gains, losses or unrealized losses during the remainder of 2026.

In accordance with GAAP, the Corporation is required to accrue a capital gains incentive fee on all realized and unrealized gains and losses. At September 30, 2026, no fee would be due based on net portfolio depreciation. At December 31, 2025, no fee was due based on net portfolio depreciation.

The expense related to the accrued capital gains incentive fee was $0 for the three and nine months ended September 30, 2026. The expense (benefit) related to the accrued capital gains incentive fee was $0 and ($1,565,000) for the three and nine months ended September 30, 2025, respectively and was recorded on the "Capital gains incentive fees" line item in the Corporation's Consolidated Statements of Operations.

Administration Agreement

Under the terms of the Administration Agreement, RCM agreed to perform (or oversee, or arrange for, the performance of) the administrative services necessary for the Corporation's operations, including, but not limited to, office facilities, equipment, clerical, bookkeeping, finance, accounting, compliance and record keeping services at such office facilities and such other services as RCM, subject to review by the Board, will from time to time determine to be necessary or useful to perform its obligations under the Administration Agreement. RCM shall also arrange for the services of, and oversee, custodians, depositories, transfer agents, dividend disbursing agents, other shareholder servicing agents, accountants, attorneys, underwriters, brokers and dealers, corporate fiduciaries, insurers, banks and such other persons in any such other capacity deemed to be necessary or desirable.

RCM is responsible for the Corporation's financial and other records that are required to be maintained and prepares all reports and other materials required to be filed with the SEC or any other regulatory authority, including reports to shareholders. In addition, RCM assists the Corporation in determining and publishing the Corporation's net asset value (NAV), overseeing the preparation and filing of the tax returns, and the printing and dissemination of reports to shareholders, and generally overseeing the payment of expenses and the performance of administrative and professional services rendered by others. RCM provides, on the Corporation's behalf, managerial assistance to those portfolio companies that have accepted its offer to provide such assistance.

For the three and nine months ended September 30, 2026, the Corporation recorded and paid administrative fees of $52,500 and $155,700, respectively, related to costs incurred by RCM that are reimbursable under the Administration Agreement. For the three and nine months ended September 30, 2025, the Corporation recorded and paid administrative fees of $50,250 and $149,250, respectively, related to costs incurred by RCM that are reimbursable under the Administration Agreement.

Note 9. FINANCIAL HIGHLIGHTS

The following schedule provides the financial highlights, calculated based on shares outstanding, for the periods indicated:

	Nine months ended September 30, 2026 (Unaudited)*	Nine months ended September 30, 2025 (Unaudited)*
Per Share Data: (1)		
Net asset value, beginning of period	17.57	25.31
Income from operations:		
Net investment income	0.65	1.58
Net realized gain (loss) on sales and dispositions of investments	0.01	(0.67)
Net change in unrealized appreciation/depreciation on investments	—	(3.98)
Increase (decrease) in net assets from operations	0.66	(3.07)
Payment of cash dividend	(0.87)	(0.87)
Effect of stock dividend	—	(3.31)
Decrease in net assets per share	(0.21)	(7.25)
Net asset value, end of period	$ 17.36	$ 18.06
Per share market price, end of period	$ 9.99	$ 14.50
Total return based on market value (2)	(4.40)%	(20.16)%
Total return based on net asset value (3)	3.72%	(25.23)%
Supplemental Data:		
Ratio of expenses before income taxes to average net assets (4)	5.29%	1.17%
Ratio of expenses including income taxes to average net assets (4)	5.30%	1.12%
Ratio of net investment income to average net assets (4)	4.95%	10.51%
Portfolio turnover	8.16%	6.85%
Debt/equity ratio	9.70%	—%
Net assets, end of period	$ 51,543,039	$ 53,621,514
Total amount of senior securities outstanding, exclusive of treasury securities	$ 5,000,000	$ -
Asset coverage per unit (5)	1,131%	N/A

(1)*Per share data is based on shares outstanding and the results are rounded to the nearest cent.*

(2)*Total return based on market value is calculated as the change in market value per share during the period plus declared dividends per share, assuming reinvestment of dividends, divided by the beginning market value per share.*

(3)*Total return based on net asset value is calculated as the change in net asset value per share during the period plus declared dividends per share, divided by the beginning net asset value per share.*

(4)*Percentage is presented on an annualized basis.*

(5)*Asset coverage per unit is the ratio of the carrying value of the Corporation's total consolidated assets, less liabilities and indebtedness not represented by senior securities, to the aggregate amount of senior securities representing indebtedness.*

* *Amounts are rounded.*

The Corporation's interim period results could fluctuate as a result of a number of factors; therefore results for any interim period should not be relied upon as being indicative of performance for the full year or in future periods.

Note 10. SEGMENT REPORTING

The Corporation operates through a single operating and reporting segment with an investment objective to generate both current income and capital appreciation through debt and equity investments. The chief operating decision maker ("CODM") is comprised of the Corporation's chief executive officer and chief financial officer and the CODM assesses the performance and makes operating decisions for the Corporation on a consolidated basis primarily based on the Corporation's net increase in net assets from operations. In addition to numerous other factors and metrics, the CODM utilizes net investment income as a key metric in determining the amount of dividends to be distributed to the Corporation's stockholders. As the Corporation's operations comprise of a single reporting segment, the segment assets are reflected on the accompanying Consolidated Statements of Financial Position as "total assets" and the significant segment expenses are listed on the accompanying Consolidated Statements of Operations. The accounting policies of the segment are the same as those described in the summary of significant accounting policies.

Note 11. SUBSEQUENT EVENT

The Corporation has evaluated subsequent events through November 4, 2026, the date the financial statements were issued.

No events occurred after the balance sheet date that provide additional evidence about conditions that existed at the balance sheet date and that require adjustment to the financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with the consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q (this "Form 10-Q"). Historical results and percentage relationships among any amounts in the consolidated financial statements are not necessarily indicative of trends in operating results for any future periods.

FORWARD LOOKING STATEMENTS

Statements included in this Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this Form 10-Q that do not relate to present or historical conditions are "forward-looking statements" within the meaning of that term in Section 27A of the Securities Act of 1933, as amended, and in Section 21E of the Securities Exchange Act of 1934, as amended. Additional oral or written forward-looking statements may be made by us from time to time, and forward-looking statements may be included in documents that are filed with the SEC. Forward-looking statements involve risks and uncertainties that could cause our results or outcomes to differ materially from those expressed in the forward-looking statements. Forward-looking statements may include, without limitation, statements relating to our plans, strategies, objectives, expectations and intentions, including statements related to our investment strategies and our intention to co-invest with certain of our affiliates; the impact of our election as a RIC for U.S. federal tax purposes on the payment of corporate level U.S. federal income taxes by Rand; statements regarding our liquidity and financial resources; statements regarding any Capital Gains Fee that may be due to RCM upon a hypothetical liquidation of our portfolio and the amount of the Capital Gains Fee that may be payable to RCM for 2026; and statements regarding our compliance with the RIC requirements as of September 30, 2026; and statements regarding future dividend payments, and are intended to be made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words such as "believes," "forecasts," "intends," "possible," "expects," "estimates," "anticipates," or "plans" and similar expressions (including their negative counterparts or other various or comparable terminology) are intended to identify forward-looking statements. Among the important factors on which such statements are based are assumptions concerning the state of the United States economy and the local markets in which our portfolio companies operate, the state of the securities markets in which the securities of our portfolio companies could be traded, liquidity within the United States financial markets, and inflation. All forward-looking statements are subject to risks and uncertainties described under the caption "Risk Factors" contained in Part II, Item 1A of this Form 10-Q and in Part I, Item 1A of the 2025 10-K.

There may be other factors not identified that affect the accuracy of our forward-looking statements. Further, any forward-looking statement speaks only as of the date when it is made and, except as required by law, we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which it is made or to reflect the occurrence of anticipated or unanticipated events or circumstances.

Overview

We are an externally managed non-diversified investment company that lends to and invests in lower middle market companies. Our investment objective is to generate current income and when possible, complement this current income with capital appreciation. As a result, our investments are primarily in higher yielding debt instruments. Our investment activities are managed by our investment adviser, Rand Capital Management, LLC ("RCM").

We have elected to be regulated as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act"). As a BDC, we are required to comply with certain regulatory requirements specified in the 1940 Act.

In November 2019, Rand completed a stock sale transaction (the "Closing") with East Asset Management ("East"). The transaction consisted of a $25 million investment in Rand by East, in the form of cash and contributed portfolio assets, in exchange for approximately 8.3 million shares of Rand common stock. Concurrent with the Closing, RCM, a registered investment adviser, was retained by Rand as its external investment adviser and administrator (the Closing and the retention of RCM as our investment adviser and administrator are collectively referred to herein as the "Transaction"). The term of the new investment advisory and management agreement (the "Investment Management Agreement") with RCM was extended after approval of its renewal by our Board of Directors (the "Board") in October 2026 and is currently scheduled to expire on December 31, 2027. In addition, the term of the administration agreement (the "Administration Agreement") with RCM was extended after approval of its renewal by the Board in October 2026 and is currently scheduled to expire on December 31, 2027. The Investment Management Agreement and Administration Agreement can continue for successive annual periods after December 31, 2027 provided that such continuance is specifically approved at least annually by (i) (A) the affirmative vote of a majority of the Board or (B) the affirmative vote of a majority of our outstanding voting securities, and (ii) the affirmative vote of a majority of our directors who are not "interested persons," as defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended (the "1940 Act"), of us, RCM or our respective affiliates.

On January 24, 2024, the Board, including a "required majority" (as such term is defined in Section 57(o) of the 1940 Act) of the Board, approved the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act. As a result, our asset coverage requirement under the 1940 Act for senior securities was changed from 200% to 150%, effective January 24, 2025. We monitor our compliance with this coverage ratio on a regular basis. As of September 30, 2026, our asset coverage ratio for senior securities was 1,131%. For a discussion of the risks associated with our adoption of a modified asset coverage requirement of 150%, please see the discussion of risks under the caption "Risk Factors – Risks related to our Indebtedness" contained in Part I, Item 1A of the 2025 10-K. Notwithstanding the reduction of our asset coverage requirement under the 1940 Act from 200% to 150% effective January 24, 2025, under the terms of the Credit Agreement, we are required to maintain an Asset Coverage Ratio (defined in the Credit Agreement as the ratio of the fair market value of all of the Corporation's assets to the sum of all of the Corporation's obligations for borrowed money plus all capital lease obligations) of not less than 300%.

Pursuant to the terms of the Investment Management Agreement, Rand pays RCM a base management fee and may pay an incentive fee, comprised of two parts: (1) the "Income Based Fee" and (2) the "Capital Gains Fee", if specified benchmarks are met.

We elected U.S. federal tax treatment as a regulated investment company ("RIC") under subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). To maintain our qualification as a RIC, we must, among other things, meet certain source of income and asset diversification requirements. As of September 30, 2026, we believe we were in compliance with the RIC requirements. As a RIC, we generally will not be subject to corporate-level U.S. federal income taxes on any net ordinary income or capital gains that we timely distribute to our shareholders as dividends. In addition, as a RIC, we must distribute annually to our shareholders at least 90% of our ordinary net income and realized net short-term capital gains in excess of realized net long-term capital losses, if any. Accordingly, our Board has regularly declared a quarterly cash dividend since our RIC election.

Our Board declared the following dividends during the nine months ended September 30, 2026:

Quarter	Dividend/Share Amount	Record Date	Payment Date
1st	$ 0.29	March 11, 2026	March 25, 2026
2nd	$ 0.29	May 27, 2026	June 10, 2026
3rd	$ 0.29	August 26, 2026	September 9, 2026

We may co-invest, subject to the conditions included in the exemptive relief order we received from the SEC, with certain of our affiliates. See the disclosure under the caption "SEC Exemptive Order" below. We believe these types of co-investments are likely to afford us additional investment opportunities and provide an ability to achieve greater diversification in our investment portfolio.

SEC Exemptive Order

On November 14, 2025, Rand, RCM and certain of RCM's affiliates were granted a new order for exemptive relief (the "Order") by the SEC that superseded all prior co-investment exemptive relief orders issued to Rand and its affiliates by the SEC. The Order permits Rand to co-invest in portfolio companies with certain of RCM's affiliates if such co-investments are done on the same terms and at the same time, as further detailed in the Order and without the need to obtain Board approval. The Order requires that a "required majority" (as defined in Section 57(o) of the 1940 Act) of the Board make certain findings (1) in most instances when Rand co-invests with RCM's affiliates in an issuer where RCM's affiliates have an existing investment in the issuer, and (2) if Rand disposes of an investment acquired in a co-investment transaction unless the disposition is done on a pro rata basis. Pursuant to the Order, the Board oversees Rand's participation in the co-investment program. As required by the Order, Rand has adopted policies and procedures reasonably designed to ensure compliance with the terms of the Order, and RCM's and Rand's Chief Compliance Officer will provide reporting to the Board regarding compliance with such policies and procedures.

Critical Accounting Policies

We prepare our consolidated financial statements in accordance with United States generally accepted accounting principles (GAAP), which require the use of estimates and assumptions that affect the reported amounts of assets and liabilities. For a summary of all significant accounting policies, including critical accounting policies, see *Note 2—Summary of Significant Accounting Policies* to the Consolidated Financial Statements in *Item 1, Financial Statements*, of this Form 10-Q.

The increasing complexity of the business environment and applicable authoritative accounting guidance requires us to monitor our accounting policies and procedures. We have two critical accounting policies that require the use of significant judgment. The following summary of critical accounting policies is intended to enhance a reader's ability to assess our financial condition and results of operations and the potential volatility due to changes in estimates.

Valuation of Investments

Our investments are carried at fair value in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures", which defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements.

Investments are valued at fair value as determined in good faith by RCM and approved by our Board. We generally invest in loan, debt, and equity instruments and there is no single standard for determining fair value of these investments. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio company while employing a consistent valuation process. Due to the inherent uncertainty of determining the fair value of portfolio investments, there may be material risks associated with this determination including that estimated fair values may differ from the values that would have been used had a readily available market value for the investments existed and these differences could be material if our assumptions and judgments differ from results of actual liquidation events. We analyze and value each investment quarterly and record unrealized depreciation for an investment that we believe has become impaired, including where collection of a loan or debt security or realization of the recorded value of an equity security is doubtful. Conversely, we will record unrealized appreciation if we believe that an underlying portfolio company has appreciated in value and, therefore, our equity securities in the underlying portfolio company have also appreciated in value. Additionally, we continue to assess any material risks associated with this fair value determination, including risks associated with material conflicts of interest.

Loan investments are defined as traditional loan financings typically with no equity features or required equity co-investment. Debt investments are defined as debt financings that include one or more equity features such as conversion rights, stock purchase warrants, and/or stock purchase options. Equity investments are direct investments into a portfolio company and may include preferred stock, common stock, warrants and limited liability company membership interests.

We utilize several approaches to determine the fair value of an investment. The main approaches are:

- Loan and debt securities are generally valued at cost when representative of the fair value of the investment or sufficient assets or liquidation proceeds are expected to exist from a sale of a portfolio company at its estimated fair value. The valuation may also consider the carrying interest rate versus the related inherent portfolio risk of the investment. A loan or debt instrument may be reduced in value if it is judged to be of poor quality, collection is in doubt or insufficient liquidation proceeds exist.
- Equity securities may be valued using the:
  - *Cost approach* - The cost approach uses estimates of the liquidation value of the portfolio company's assets in relation to the cost of the respective security. This approach values the equity at the value remaining after the portfolio company pays off its debt and loan balances and its outstanding liabilities.
  - *Market approach* - The market approach uses observable prices and other relevant information generated by similar market transactions. It may include both private and public M&A transactions where the traded price is a multiple of EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) or another relevant operating metric. It may also include the market value of comparable public companies that are trading in an active market, or the use of market multiples derived from a set of comparables to assist in pricing the investment. Additionally, we adjust valuations if a subsequent significant equity financing has occurred that includes a meaningful portion of the financing by a sophisticated, unrelated new investor.
  - *Income approach* - The income approach employs valuation techniques to convert future benefits or costs, usually in the form of cash flows, into a present value amount. The measurement is based on value indicated by current market expectations about those future amounts.

ASC 820 classifies the inputs used to measure fair value into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities, used in our valuation at the measurement date. Under the valuation policy, we value unrestricted publicly traded companies, categorized as Level 1 investments, at the closing price on the last trading day of the reporting period.

Level 2: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3: Unobservable and significant inputs to determining the fair value.

Financial assets are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Any changes in estimated fair value are recorded in the statement of operations.

At September 30, 2026 and December 31, 2025, all of our investments were Level 3 investments. There were no Level 1 or Level 2 investments at September 30, 2026 or December 31, 2025.

In the valuation process, we value restricted securities, categorized as Level 3 investments, using information from these portfolio companies, and, when considered appropriate, third-party valuation inputs, which may include:

- Audited and unaudited statements of operations, balance sheets and operating budgets;
- Current and projected financial, operational and technological developments of the portfolio company;
- Current and projected ability of the portfolio company to service its debt obligations;
- The current capital structure of the business and the seniority of the various classes of equity if a deemed liquidation event were to occur;
- Pending debt or capital restructuring of the portfolio company;
- Current information regarding any offers to purchase the investment, or recent financing transactions;
- Current ability of the portfolio company to raise additional financing if needed;
- Changes in the economic environment which may have a material impact on the operating results of the portfolio company;
- Internal circumstances and events that may have an impact (both positive and negative) on the operating performance of the portfolio company;
- Qualitative assessment of key management;
- Contractual rights, obligations or restrictions associated with the investment; and
- Other factors deemed relevant to assess valuation.

The valuation may be reduced if a portfolio company's performance and potential have deteriorated significantly. If the factors that led to a reduction in valuation are overcome, the valuation may be adjusted accordingly.

Equity Securities

Equity securities may include preferred stock, common stock, warrants and limited liability company membership interests.

The significant unobservable inputs used in the fair value measurement of our equity investments are EBITDA and revenue multiples, where applicable, the financial and operational performance of the business, and the debt and senior equity preferences that may exist in a deemed liquidation event. Standard industry multiples may be used when available; however, our portfolio companies are typically privately-held, lower middle market companies, and these industry standards may be adjusted to more closely match the specific financial and operational characteristics of the portfolio company. Due to the nature of certain investments, fair value measurements may be based on other criteria, which may include third-party appraisals. Significant changes in any of these unobservable inputs may result in a significantly higher or lower fair value estimate.

Another key factor used in valuing equity investments is a significant recent arm's-length equity transaction entered into by the portfolio company with a sophisticated, non-strategic and unrelated new investor. The terms of these equity transactions may not be identical to the equity transactions between the portfolio company and us, and the impact of the difference in transaction terms on the market value of the portfolio company may be difficult or impossible to quantify.

When appropriate, the Black-Scholes pricing model is used to estimate the fair value of warrants for accounting purposes. This model requires the use of highly subjective inputs including expected volatility and expected life, in addition to variables for the valuation of minority equity positions in small private and early-stage companies. Significant changes in any of these unobservable inputs may result in a significantly higher or lower fair value estimate.

For investments made within the last year, we generally rely on the cost basis, which is deemed to represent the fair value, unless other fair value inputs are identified causing us to depart from this basis.

Loan and Debt Securities

The significant unobservable inputs used in the fair value measurement of our loan and debt securities are the financial and operational performance of the portfolio company, similar debt with similar terms with other portfolio companies, as well as the market acceptance for the portfolio company's products or services. These inputs will likely provide an indicator as to the probability of principal recovery of the investment. Our loan and debt investments are often junior secured or unsecured securities. Fair value may also be determined based on other criteria where appropriate. Significant changes to the unobservable inputs may result in a change in fair value. For recent investments, we generally rely on the cost basis, which is deemed to represent the fair value, unless other fair value inputs are identified causing us to depart from this basis.

Revenue Recognition

Interest income is recognized on the accrual basis except where the investment is in default or where receipt of such interest is otherwise presumed to be in doubt. In such cases, interest is recognized at the time of receipt. A reserve for possible losses on interest receivable is maintained when appropriate.

We hold debt securities in our investment portfolio that contain payment-in-kind ("PIK") interest provisions. PIK interest, computed at the contractual rate specified in each debt agreement, is added to the principal balance of the debt and is recorded as interest income. Thus, the actual collection of this interest may be deferred until the time of debt principal repayment. For investments with PIK interest, we will not accrue PIK interest if the portfolio company valuation indicates that the PIK interest is not collectible. Loans that are on non-accrual status remain in such status until the borrower has demonstrated the ability and intent to pay contractual amounts due or such loans become current.

We may receive cash distributions from portfolio companies that are limited liability companies or corporations, and these distributions are classified as dividend income on our consolidated statement of operations. Dividend income is recognized on an accrual basis when it can be reasonably estimated for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies.

We may hold preferred equity securities that contain cumulative dividend provisions. Cumulative dividends are recorded as dividend income, if declared and deemed collectible, and any dividends in arrears are recognized into income and added to the balance of the preferred equity investment. The actual collection of these dividends in arrears may be deferred until such time as the preferred security is redeemed.

Financial Condition

Overview:

	September 30, 2026	December 31, 2025	Increase (Decrease)	% Increase (Decrease)
Total assets	$ 57,642,094	$ 53,195,312	$ 4,446,782	8.4%
Total liabilities	6,099,055	1,011,859	5,087,196	502.8%
Net assets	$ 51,543,039	$ 52,183,453	$ (640,414)	(1.2)%

Net asset value per share (NAV) was $17.36 at September 30, 2026 and $17.57 at December 31, 2025.

Cash and cash equivalents approximated 0.4% of net assets at September 30, 2026, as compared to 8.1% of net assets at December 31, 2025.

During 2022, we entered into a $25 million senior secured revolving credit facility (the "Credit Facility") with M&T Bank, as lender (the "Lender"), with the amount that we can borrow thereunder, at any given time, determined based upon a borrowing base formula. The Credit Facility has a 5-year term with a maturity date of June 27, 2027. Our borrowings under the Credit Facility bear interest at a variable rate per annum equal to 3.50 percentage points above the greater of (i) the applicable daily simple secured overnight financing rate (SOFR) or (ii) 0.25%. At September 30, 2026, there was $5,000,000 drawn on the Credit Facility and the applicable interest rate was 7.40%. See *Note 6—Senior Secured Revolving Credit Facility* to the Consolidated Financial Statements in *Item 1, Financial Statements*, of this Form 10-Q for additional information regarding the terms of our Credit Facility.

Composition of Our Investment Portfolio

Our financial condition is dependent on the success of our portfolio holdings. The following summarizes our investment portfolio at the dates indicated:

	September 30, 2026	December 31, 2025	Increase	% Increase
Investments, at cost	$ 65,272,801	$ 57,062,399	$ 8,210,402	14.4%
Unrealized depreciation, net	(8,536,746)	(8,581,903)	45,157	0.5%
Investments, at fair value	$ 56,736,055	$ 48,480,496	$ 8,255,559	17.0%

Our total investments at fair value, as determined by RCM and approved by our Board, approximated 110% of net assets at September 30, 2026 as compared to approximately 93% of net assets at December 31, 2025.

Our investment objective is to generate current income and when possible, complement this current income with capital appreciation. As a result, we are focused on investing in higher yielding debt instruments and related equity investments in privately held, lower middle market companies with a committed and experienced management team in a broad variety of industries.

The change in investments during the nine months ended September 30, 2026, at cost, is comprised of the following:

	Cost Increase (Decrease)
New and follow-on investments:	
Feature Healthcare, LLC (4 Seasons)	$ 4,500,000
AME Holdco, LLC (AME)	4,000,000
Termite Guy Corporation (Termite Guy)	2,400,000
Mountain Regional Equipment Solutions (MRES)	677,924
BMP Food Service Supply Holdco, LLC (FSS)	400,000
Caitec, Inc. (Caitec)	50,000
Total of new investments	12,027,924
Other changes to investments:	
Autotality interest conversion	123,886
Highland All About People Holdings, Inc. (All About People) interest conversion	101,294
Caitec interest conversion	77,112
FCM Industries Holdco LLC (First Coast Mulch) interest conversion	42,071
BMP Swanson Holdco, LLC (Swanson) interest conversion	32,964
Mobile RN Holdings LLC (Mobile IV Nurses) interest conversion	19,249
BlackJet Direct Marketing, LLC (BlackJet) interest conversion	16,519
4 Seasons interest conversion	16,250
GoNoodle, Inc. (GoNoodle) interest conversion	13,983
Inter-National Electronic Alloys LLC (EFINEA) interest conversion	8,480
Termite Guy interest conversion	7,004
MRES OID amortization	3,000
Bauer Sheet Metal and Fabricating, LLC (Bauer) OID amortization	1,800
Total of other changes to investments	463,612
Investments repaid, sold, liquidated or converted:	
4 Seasons debt repayment	(16,250)
Seybert's Billiards Corporation (Seybert's) equity and warrant sale	(244,000)
BlackJet debt repayment	(250,000)
Applied Image, Inc. (Applied Image) debt repayment and warrant sale	(1,750,000)
Swanson realized loss	(2,020,884)
Total of investments repaid, sold, liquidated or converted	(4,281,134)
Net change in investments, at cost	**$ 8,210,402**

Results of Operations

Comparison of the three months ended September 30, 2026 to the three months ended September 30, 2025:

Investment Income

	Three months ended September 30, 2026	Three months ended September 30, 2025	(Decrease) Increase	% (Decrease) Increase
Interest from portfolio companies	$ 1,224,323	$ 1,425,134	$ (200,811)	(14.1)%
Interest from other investments	45	73,488	(73,443)	n/m
Dividend and other investment income	28,241	—	28,241	n/m
Fee income	59,159	81,001	(21,842)	(27.0)%
Total investment income	$ 1,311,768	$ 1,579,623	$ (267,855)	(17.0)%

n/m - Not meaningful

The total investment income during the three months ended September 30, 2026 was received from 13 portfolio companies. For the three months ended September 30, 2025, total investment income was received from 15 portfolio companies.

Interest from portfolio companies – Interest from portfolio companies was approximately 14% lower during the three months ended September 30, 2026 versus the same period in 2025 due to several interest-yielding investments being placed on non-accrual status during the last year. Debt instruments in Autotality, FSS, ITA Acquisition, LLC (ITA), and MRES have all been placed on non-accrual status.

We hold debt securities in our investment portfolio that contain payment-in-kind ("PIK") interest provisions. PIK interest, computed at the contractual rate specified in each debt agreement, is added to the principal balance of the debt and is recorded as interest income. Thus, the actual collection of this interest may be deferred until the time of debt principal repayment. Interest can also be shifted from current cash payment to PIK as part of a loan modification. For the three months ended September 30, 2026 and 2025, 7.5% and 39.1%, respectively, of our total investment income was attributable to non-cash PIK interest income. This decrease is primarily due to debt instruments in Autotality, FSS, ITA, and MRES being placed on non-accrual status.

Interest from other investments - The decrease in interest from other investments is primarily due to lower average cash balances during the three months ended September 30, 2026 versus the same period in 2025.

Dividend and other investment income - Dividend income is comprised of cash distributions from limited liability companies (LLCs) and corporations in which we have invested. Our investment agreements with certain LLCs require those LLCs to distribute funds to us for payment of income taxes on our allocable share of the LLC's profits. These portfolio companies may also elect to make additional discretionary distributions or dividends. Dividend income will fluctuate based upon the profitability of these LLCs and corporations and the timing of the distributions. During the three months ended September 30, 2026, we recognized $28,241 in dividend income from EFINEA. No dividend income was recognized during the three months ended September 30, 2025.

Fee income - Fee income generally consists of the revenue associated with the amortization of financing fees charged to the portfolio companies upon successful closing of financings, income associated with portfolio company monitoring fees, and other miscellaneous fees. The financing fees are amortized ratably over the life of the instrument associated with the fees. The unamortized fees are carried on the balance sheet under the line item "Deferred revenue."

The income associated with the amortization of financing fees was $40,070 and $69,412 for the three months ended September 30, 2026 and 2025, respectively. During the three months ended September 30, 2026, we recognized a loan monitoring fee of $11,589 from our investment in First Coast Mulch and a prepayment fee of $7,500 from our investment in BlackJet. During the three months ended September 30, 2025, we recognized a loan monitoring fee of $11,589 from our investment in First Coast Mulch.

Expenses

	Three months ended September 30, 2026	Three months ended September 30, 2025	Increase	% Increase
Total expenses	$ 769,396	$ 596,203	$ 173,193	29.0%

The increase in total expenses during the three months ended September 30, 2026 versus the same period in 2025 was primarily due to a $107,123 increase in professional fees, a $87,748 increase in interest expense, and a $30,587 increase in base management fee expense.

Professional fees expense increased by $107,123 during the three months ended September 30, 2026, versus the same period in 2025 because we incurred increased fees associated with the complex regulatory environment in which we operate.

The increase in interest expense resulted from higher average outstanding debt balances during the three months ended September 30, 2026 versus the same period in 2025 under the Credit Facility. Interest expense for the three months ended September 30, 2026 and 2025 was $113,164 and $25,416, respectively.

The base management fee payable to RCM is calculated based upon total assets less cash, and, as we deploy more capital into investments or the fair value of our investments increases, the base management fee payable to RCM will increase accordingly. The base management fee for the three months ended September 30, 2026 and 2025 was $214,969 and $184,382, respectively.

Net Investment Income

The excess of investment income over total expenses, including income taxes, represents net investment income. The net investment income for the three months ended September 30, 2026 and 2025 was $668,941 and $992,579, respectively.

Realized Loss on Investments

	Three months ended September 30, 2026	Three months ended September 30, 2025	Change
Realized loss on investments before income taxes	$ (2,020,884)	$ (2,927,329)	$ 906,445

During the three months ended September 30, 2026, we recognized a realized loss of ($2,020,884) on our debt and equity investment in Swanson after they ceased operations.

During the three months ended September 30, 2025, we recognized a net realized loss of ($2,850,015) on the liquidation of our investment in Tilson Technology Management, Inc. (Tilson). Tilson filed a voluntary petition for relief under Chapter 11 of the U.S. Bankruptcy Code in the United States Bankruptcy Court, District of Delaware, and subsequently sold all of its assets.

In addition, during the three months ended September 30, 2025, we recognized a net realized loss of ($77,314) on our loan investment in Lumious.

Change in Unrealized Appreciation (Depreciation) of Investments

	Three months ended September 30, 2026	Three months ended September 30, 2025	Change
Change in unrealized appreciation (depreciation) of investments before income taxes	$ 2,422,824	$ (291,703)	$ 2,714,527

The change in net unrealized appreciation (depreciation), before income taxes, for the three months ended September 30, 2026, was comprised of the following:

	Three months ended September 30, 2026
Swanson	$ 2,020,884
Bauer	700,000
Open Exchange, Inc. (Open Exchange)	401,940
EFINEA	300,000
OnCore Golf Technology, Inc. (OnCore)	(100,000)
ITA	(400,000)
Autotality	(500,000)
Total change in net unrealized appreciation (depreciation) of investments before income taxes	$ 2,422,824

We exited our investment in Swanson during the three months ended September 30, 2026 after they ceased operations.

In accordance with the Corporation's valuation policy, we increased the value of our investments in Bauer, Open Exchange, and EFINEA during the three months ended September 30, 2026 after a financial analysis of each of the portfolio companies indicated continued improvement in performance.

During the three months ended September 30, 2026, the valuation of our investments in OnCore, ITA, and Autotality were decreased after a review of their operations and financial condition.

The change in net unrealized appreciation (depreciation), before income taxes, for the three months ended September 30, 2025, was comprised of the following:

	Three months ended September 30, 2025
Tilson	$ 2,850,015
Lumious	189,944
FSS	(3,331,662)
Total change in net unrealized appreciation (depreciation) of investments before income taxes	$ (291,703)

We exited our investments in Tilson and Lumious during the three months ended September 30, 2025.

During the three months ended September 30, 2025, the valuation of our debt investment in FSS was decreased after a review of their operations and financial condition.

All of the valuation adjustments resulted from a determination of fair value in good faith by RCM, which was subsequently approved by our Board, using the guidance set forth by ASC 820 and our established valuation policy.

Net Increase (Decrease) in Net Assets from Operations

We account for our operations under GAAP for investment companies. The principal measure of our financial performance is "Net increase (decrease) in net assets from operations" on our consolidated statements of operations. The net increase (decrease) in net assets from operations for the three months ended September 30, 2026 and 2025 was $944,398 and ($2,231,194), respectively.

Comparison of the nine months ended September 30, 2026 to the nine months ended September 30, 2025:

Investment Income

	Nine months ended September 30, 2026	Nine months ended September 30, 2025	(Decrease) Increase	% (Decrease) Increase
Interest from portfolio companies	$ 3,580,809	$ 4,616,862	$ (1,036,053)	(22.4)%
Interest from other investments	13,873	120,427	(106,554)	(88.5)%
Dividend and other investment income	180,754	13,125	167,629	1277.2%
Fee income	170,600	439,410	(268,810)	(61.2)%
Total investment income	$ 3,946,036	$ 5,189,824	$ (1,243,788)	(24.0)%

The total investment income during both the nine months ended September 30, 2026 and 2025 was received from 18 portfolio companies.

Interest from portfolio companies – Interest from portfolio companies was approximately 22% lower during the nine months ended September 30, 2026 versus the same period in 2025 due to several interest-yielding investments being placed on non-accrual status during the last year. Debt instruments in Autotality, FSS, ITA, and MRES have all been placed on non-accrual status.

We hold debt securities in our investment portfolio that contain payment-in-kind ("PIK") interest provisions. PIK interest, computed at the contractual rate specified in each debt agreement, is added to the principal balance of the debt and is recorded as interest income. Thus, the actual collection of this interest may be deferred until the time of debt principal repayment. Interest can also be shifted from current cash payment to PIK as part of a loan modification. For the nine months ended September 30, 2026 and 2025, 11.6% and 35.5%, respectively, of our total investment income was attributable to non-cash PIK interest income. This decrease is primarily due to debt instruments in Autotality, FSS, ITA, and MRES being placed on non-accrual status.

Interest from other investments - The decrease in interest from other investments is primarily due to lower average cash balances during the nine months ended September 30, 2026 versus the same period in 2025.

Dividend and other investment income - Dividend income is comprised of cash distributions from limited liability companies (LLCs) and corporations in which we have invested. Our investment agreements with certain LLCs require those LLCs to distribute funds to us for payment of income taxes on our allocable share of the LLC's profits. These portfolio companies may also elect to make additional discretionary distributions and dividends. Dividend income will fluctuate based upon the profitability of these LLCs and corporations and the timing of the distributions. During the nine months ended September 30, 2026, we recognized $169,447 in dividend income from EFINEA and $11,307 in dividend income from Carolina Skiff LLC (Carolina Skiff). During the nine months ended September 30, 2025, we recognized $13,125 in dividend income from Tilson.

Fee income - Fee income generally consists of the revenue associated with the amortization of financing fees charged to the portfolio companies upon successful closing of financings, income from portfolio company board attendance fees, income associated with portfolio company monitoring fees, and other miscellaneous fees. The financing fees are amortized ratably over the life of the instrument associated with the fees. The unamortized fees are carried on the balance sheet under the line item "Deferred revenue."

The income associated with the amortization of financing fees was $146,511 and $208,368 for the nine months ended September 30, 2026 and 2025, respectively. During the nine months ended September 30, 2026, we recognized a loan monitoring fee of $11,589 from our investment in First Coast Mulch, a prepayment fee of $7,500 from our investment in BlackJet, and a loan modification fee of $5,000 from our investment in GoNoodle.

During the nine months ended September 30, 2025, we recognized a prepayment fee of $167,187 from our investment in Mattison Avenue Holdings LLC (Mattison), a loan monitoring fee of $20,000 from our investment in Pressure Pro, Inc. (Pressure Pro), a prepayment fee of $17,266 from our investment in Pressure Pro, a loan modification fee of $15,000 from our investment in MRES, and a loan monitoring fee of $11,589 from our investment in First Coast Mulch.

Expenses

	Nine months ended September 30, 2026	Nine months ended September 30, 2025	Increase	% Increase
Total expenses	$ 2,058,703	$ 523,109	$ 1,535,594	293.6%

The increase in total expenses during the nine months ended September 30, 2026 versus the same period in 2025 was primarily due to a $1,565,000 capital gains incentive fee benefit that did not repeat during the current year period as explained in greater detail in the paragraph below, a $127,931 increase in interest expense, and a $104,077 increase in professional fees. The increase was partially offset by a $188,478 decrease in the income based incentive fee expense.

Based on the calculation of the capital gains fee as required by GAAP, there was no capital gains incentive fee expense during the nine months ended September 30, 2026. We are required under GAAP to accrue capital gains incentive fees on the basis of net realized capital gains and losses and net unrealized gains and losses. Our capital gains incentive fee accrual reflects the capital gains incentive fees that would be payable to RCM if our entire investment portfolio was liquidated at its fair value as of the balance sheet date, even though RCM is not entitled to this capital gains incentive fee under the Investment Management Agreement with respect to unrealized gains unless and until such gains are realized. At September 30, 2026, no fee would be due based on net portfolio depreciation, and accordingly no capital gains incentive fee expense was recognized during the nine months ended September 30, 2026. For the nine months ended September 30, 2025, the capital gains incentive fee benefit was ($1,565,000), which represented a reversal of a previously accrued capital gains incentive fee based on the calculation as required by GAAP.

The increase in interest expense resulted from higher average outstanding debt balances during the nine months ended September 30, 2026 versus the same period in 2025 under the Credit Facility. Interest expense for the nine months ended September 30, 2026 and 2025 was $215,250 and $87,319, respectively.

Professional fees expense increased by $104,077 during the nine months ended September 30, 2026, versus the same period in 2025 because we incurred increased fees associated with the complex regulatory environment in which we operate.

The income based incentive fee is calculated quarterly in accordance with the Investment Management Agreement. There was a ($2,300) income based incentive fee benefit during the nine months ended September 30, 2026, which represented a reversal of a previously accrued income based incentive fee associated with our investment in Swanson. During the three months ended September 30, 2026, we recognized a realized loss on our investment in Swanson. The income based incentive fee accrued during the nine months ended September 30, 2025 was $186,178, and was a result of Pre-Incentive Fee Net Investment Income being above the applicable hurdle rate during the applicable quarter, as set forth and described in the Investment Management Agreement. See *Note 8—Related Party Transactions* to the Consolidated Financial Statements in *Item 1, Financial Statements*, of this Form 10-Q for additional information regarding the Income Based Fee.

Net Investment Income

The excess of investment income over total expenses, including income taxes, represents net investment income. The net investment income for the nine months ended September 30, 2026 and 2025 was $1,923,629 and $4,688,928, respectively.

Realized Gain (Loss) on Investments

	Nine months ended September 30, 2026	Nine months ended September 30, 2025	Change
Realized gain (loss) on investments before income taxes	$ 13,635	$ (2,001,997)	$ 2,015,632

During the nine months ended September 30, 2026, we sold our equity and warrant investments in Seybert's and recognized a realized gain of $1,072,459. In addition, during the nine months ended September 30, 2026, we recognized a realized gain of $958,948 from the sale of our warrant investment in Applied Image. We also recognized a realized gain of $3,112 from additional proceeds received from the sale of our preferred equity investment in Carolina Skiff.

During the nine months ended September 30, 2026, we recognized a realized loss of ($2,020,884) on our debt and equity investment in Swanson after they ceased operations.

During the nine months ended September 30, 2025, we recognized a net realized loss of ($2,850,015) on the liquidation of our investment in Tilson. Tilson filed a voluntary petition for relief under Chapter 11 of the U.S. Bankruptcy Code in the United States Bankruptcy Court, District of Delaware, and subsequently sold all of its assets.

During the nine months ended September 30, 2025, we sold our warrant investment in Pressure Pro and recognized a realized gain of $870,000. In addition, during the nine months ended September 30, 2025, we recognized a gain of $55,357 from additional proceeds received from Microcision LLC (Microcision), an investment we exited in 2022. We also recognized a net realized loss of

($77,314) on our loan investment in Lumious and a realized loss of ($25) on GoNoodle when the Series C warrant expired without exercise.

Change in Unrealized Appreciation (Depreciation) of Investments

	Nine months ended September 30, 2026	Nine months ended September 30, 2025	Change
Change in unrealized appreciation (depreciation) of investments before income taxes	$ 45,157	$ (11,902,301)	$ 11,947,458

The change in net unrealized appreciation (depreciation), before income taxes, for the nine months ended September 30, 2026, was comprised of the following:

	Nine months ended September 30, 2026
SQF LLC (Verta)	$ 1,000,000
Bauer	988,000
Open Exchange	701,940
EFINEA	700,000
All About People	400,000
4 Seasons	200,000
Caitec	50,000
OnCore	(100,000)
ITA	(400,000)
MRES	(403,000)
Swanson	(516,667)
Seybert's	(1,051,659)
Autotality	(1,523,457)
Total change in net unrealized appreciation (depreciation) of investments before income taxes	$ 45,157

We exited our investments in Seybert's and Swanson during the nine months ended September 30, 2026.

In accordance with the Corporation's valuation policy, we increased the value of our investments in Verta, Bauer, Open Exchange, EFINEA, All About People, 4 Seasons, and Caitec after a financial analysis of each of the portfolio companies indicating continued improvement in performance.

During the nine months ended September 30, 2026, the valuation of our investments in OnCore, ITA, MRES, and Autotality were decreased after a review of their operations and financial condition.

The change in net unrealized appreciation (depreciation), before income taxes, for the nine months ended September 30, 2025, was comprised of the following:

	Nine months ended September 30, 2025
EFINEA	$ 488,235
First Coast Mulch	484,837
Seybert's	256,000
Mobile IV Nurses	125,000
Carolina Skiff	(442,755)
Pressure Pro	(720,000)
MRES	(739,352)
ITA	(875,000)
FSS	(3,829,281)
Tilson	(6,649,985)
Total change in net unrealized (depreciation) appreciation of investments before income taxes	$ (11,902,301)

We exited our investments Tilson and Pressure Pro during the nine months ended September 30, 2025.

In accordance with the Corporation's valuation policy, we increased the value of our investments in EFINEA, First Coast Mulch, Mobile IV Nurses, and Seybert's after a financial analysis of each of the portfolio companies indicating continued improvement in performance.

During the nine months ended September 30, 2025, the valuation of our investments in Carolina Skiff, FSS, ITA, and MRES were decreased after a review of their operations and financial condition.

All of the valuation adjustments resulted from a determination of fair value in good faith by RCM, which was subsequently approved by our Board, using the guidance set forth by ASC 820 and our established valuation policy.

Net Increase (Decrease) in Net Assets from Operations

We account for our operations under GAAP for investment companies. The principal measure of our financial performance is "Net increase (decrease) in net assets from operations" on our consolidated statements of operations. The net increase (decrease) in net assets from operations for the nine months ended September 30, 2026 and 2025 was $1,943,207 and ($9,125,901), respectively.

Liquidity and Capital Resources

Liquidity is a measure of our ability to meet anticipated cash requirements, fund new and follow-on portfolio investments, pay distributions to our shareholders and respond to other general business demands. As of September 30, 2026, our total liquidity consisted of approximately $223,000 in cash and approximately $12,400,000 of unused availability on our Credit Facility.

During 2022, we entered into a $25 million Credit Facility. The amount we can borrow, at any given time, under the Credit Facility is tied to a borrowing base, which is measured as (i) 75% of the aggregate sum of the fair market values of the publicly traded equity securities we hold (other than shares of ACV Auctions, if any) plus (ii) the least of (a) 75% of the fair market value of the shares of ACV Auctions we hold, if any, (b) $6.25 million and (c) 25% of the aggregate borrowing base availability for the Credit Facility at any date of determination plus (iii) 50% of the aggregate sum of the fair market values of eligible private loans we hold that meet specified criteria plus (iv) the lesser of (a) 50% of the aggregate sum of the fair market values of unsecured private loans we hold that meet specified criteria and (b) $1.25 million minus (v) such reserves as the Lender may establish from time to time in its sole discretion. The Credit Facility has a maturity date of June 27, 2027. The outstanding balance drawn on the Credit Facility at September 30, 2026 was $5,000,000. Under the borrowing base formula described above, the unused line of credit balance for the Credit Facility was approximately $12,400,000 at September 30, 2026.

Our borrowings under the Credit Facility bear interest at a variable rate determined as a rate per annum equal to 3.50 percentage points above the greater of (i) the applicable daily simple secured overnight financing rate (SOFR) or (ii) 0.25%. At September 30, 2026, our applicable interest rate was 7.40%.

The Credit Agreement contains representations and warranties and affirmative, negative and financial covenants usual and customary for agreements of this type, including among others covenants that prohibit, subject to certain specified exceptions, our

ability to merge or consolidate with other companies, sell any material part of our assets, incur other indebtedness, incur liens on our assets, make investments or loans to third parties other than permitted investments and permitted loans, and declare any distribution or dividend other than certain permitted distributions. The Credit Agreement includes the following financial covenants: (i) a tangible net worth covenant that requires us to maintain a Tangible Net Worth (defined in the Credit Agreement as our aggregate assets, excluding intangible assets, less all of our liabilities) of not less than $50.0 million, which is measured quarterly at the end of each fiscal quarter, (ii) an asset coverage ratio covenant that requires us to maintain an Asset Coverage Ratio (defined in the Credit Agreement as the ratio of the fair market value of all of our assets to the sum of all of our obligations for borrowed money plus all capital lease obligations) of not less than 3:1, which is measured quarterly at the end of each fiscal quarter and (iii) an interest coverage ratio covenant that requires us to maintain an Interest Coverage Ratio (defined in the Credit Agreement as the ratio of Cash Flow (as defined in the Credit Agreement) to Interest Expense (as defined in the Credit Agreement)) of not less than 2.5:1, which is measured quarterly on a trailing twelve-months basis. We were in compliance with these covenants at September 30, 2026. See *Note 6—Senior Secured Revolving Credit Facility* to the Consolidated Financial Statements in *Item 1, Financial Statements*, of this Form 10-Q for additional information regarding the terms of our Credit Facility.

For the nine months ended September 30, 2026, we experienced a net decrease in cash of approximately $3,986,000, which is a net effect of approximately $6,402,000 of net cash used in our operating activities and approximately $2,416,000 of net cash provided by our financing activities.

The $6,402,000 of net cash used in our operating activities during the nine months ended September 30, 2026 resulted primarily from approximately $12,028,000 used to fund new or follow-on portfolio company investments, approximately $459,000 in non-cash interest income, and an approximately $196,000 net increase in operating assets. This was partially offset by net investment income of approximately $1,924,000, approximately $4,295,000 received from the sales of equity investments and repayments of debt investments, and an approximately $87,000 net increase in operating liabilities.

Net cash provided by financing activities during the nine months ended September 30, 2026 was approximately $2,416,000. This is comprised of $5,000,000 in net borrowings on the Credit Facility and approximately $2,584,000 in cash dividends paid to shareholders.

We anticipate that we will continue to fund our investment activities and operations through cash generated through our ongoing operating activities and through borrowings under the Credit Facility. The Credit Facility is scheduled to mature on June 27, 2027, and our liquidity and business operations could be adversely impacted if we are unable to extend the maturity of the Credit Facility, obtain alternate financing, or repay the Credit Facility using cash generated through our operating activities. We anticipate that we will continue to exit investments. However, the timing of liquidation events with respect to our privately held investments is difficult to project.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to financial market risks primarily consisting of risks resulting from changes in interest rates and the valuation of our investment portfolio.

Interest Rate Risk

Changes in interest rates may affect our interest expense on the debt outstanding under our Credit Facility. Our debt borrowings under the Credit Facility bear interest at a variable rate determined as a rate per annum equal to 3.50 percentage points above the greater of (i) the applicable daily simple secured overnight financing rate (SOFR) and (ii) 0.25%. Changes in interest rates can also affect, among other things, our ability to acquire and originate loans and securities and the value of our investment portfolio. As of September 30, 2026, all of our debt investments that are not on non-accrual status had fixed interest rates and were not directly impacted by changes in market interest rates.

Based on our Consolidated Statement of Financial Position as of September 30, 2026, the following table shows the approximate annualized increase (decrease) in net investment income due to hypothetical base rate changes in interest rates under our Credit Facility, assuming no changes in our borrowings as of September 30, 2026. Because we often borrow money to make investments, our net investment income is dependent upon the difference between our borrowing rate and the rate we earn on the

invested proceeds borrowed. In periods of rising interest rates, the rate we earn on our debt investments with fixed interest rates will remain the same, while the interest incurred on our borrowings under the Credit Facility will increase.

	Impact on net investment income from a change in interest rates on our Credit Facility at:		
	1%	2%	3%
Increase in interest rate	$ (50,000)	$ (100,000)	$ (150,000)
Decrease in interest rate	50,000	100,000	150,000

Although we believe that this analysis is indicative of our existing interest rate sensitivity under our Credit Facility at September 30, 2026, it does not adjust for changes in the credit quality, size and composition of our investment portfolio, and other business developments, including increased borrowings under our Credit Facility, that could affect our net investment income. Accordingly, no assurances can be given that actual results would not differ materially from the results under this hypothetical analysis.

We do not currently engage in any hedging activities. However, we may, in the future, hedge against interest rate fluctuations by using standard hedging instruments such as futures, options and forward contracts. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in the benefits of lower interest rates with respect to our borrowed funds.

Valuation Risk

We carry our investments at fair value in accordance with FASB Accounting Standards Codification (ASC) 820, “Fair Value Measurements and Disclosures”, as determined in good faith by RCM and approved by our Board. Determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio company investment while employing a consistent valuation process. Due to the inherent uncertainty of determining the fair value of portfolio investments, there are material risks associated with this determination including that estimated fair values may differ from the values that would have been used had a readily available market value for the investments existed and these differences could be material if our assumptions and judgments differ from results of actual liquidation events. In addition, changes in the market environment and other events that may occur over the life of the investments may cause the value realized on these investments to be different than the valuations that are assigned. The types of factors that we may take into account in valuation of our investments include, as relevant, third party valuations, the portfolio company’s ability to make payments and its earnings, the markets in which the portfolio company does business, comparison to publicly-traded securities, recent sales of or offers to buy comparable companies, and other relevant factors.

Item 4. Controls and Procedures

Disclosure Controls and Procedures. The Corporation maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports that it files or submits under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms, and that this information is accumulated and communicated to management, including the Chief Executive Officer (the Corporation’s principal executive officer) and the Chief Financial Officer (the Corporation’s principal financial officer), as appropriate, to allow timely decisions regarding required disclosure. The Chief Executive Officer and the Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of the Corporation’s disclosure controls and procedures as of September 30, 2026. Based on the evaluation of these disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer concluded that the Corporation’s controls and procedures were not effective as of September 30, 2026 as a result of material weakness in the controls related to the accounting for income taxes and related disclosures discussed in the 2025 10-K.

As previously disclosed under the caption “Controls and Procedures” contained in Part II, Item 9A of the 2025 10-K, management commenced the following remediation actions relating to this material weakness:

- Engaging a new third-party tax advisory firm with enhanced technical resources and review procedures.
- Implementing additional management review controls over the income tax provision, including documented review procedures.
- Enhancing internal documentation supporting the completeness and accuracy of data used in tax calculations.

The Chief Executive Officer and Chief Financial Officer believe these measures will remediate the identified material weakness; however, the material weakness will not be considered remediated until the enhanced controls have been implemented and have operated effectively for a sufficient period of time to enable management to conclude, through testing, that the controls are operating effectively.

Changes in Internal Control over Financial Reporting. Except for the material weakness and remediation efforts described above, there have been no changes in our internal control over financial reporting during the Corporation’s most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Corporation’s internal control over financial reporting.

PART II.
OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1A. Risk Factors

See the information provided under the heading "Risk Factors" in Part I, Item 1A of the 2025 10-K. There have been no material changes from the risk factors as previously disclosed in the 2025 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Period	Total number of shares purchased [1]	Average price paid per share [2]	Total number of shares purchased as part of publicly announced plan [3]	Maximum dollar amount of shares that may yet be purchased under the share repurchase program [3]
7/1/2026 – 7/31/2026	—	—	—	$ 1,500,000
8/1/2026 – 8/31/2026	—	—	—	$ 1,500,000
9/1/2026 – 9/30/2026	—	—	—	$ 1,500,000
Total	—	—	—	

(1)There were no shares repurchased during the three-month period ended September 30, 2026.
(2)The average price paid per share is calculated on a settlement basis and includes commission.
(3)On April 22, 2026, our Board of Directors approved a new share repurchase plan, which authorizes the Corporation to repurchase shares of the Corporation's outstanding common stock with an aggregate cost of up to $1,500,000 at prices per share of common stock of no greater than the then current net asset value. This share repurchase authorization lasts for a period of 12 months from the authorization date, until April 22, 2027.

Item 3. Defaults upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

During the three months ended September 30, 2026, no director or officer of the Corporation adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.

Item 6. Exhibits

(a)Exhibits

The following exhibits are filed with this report or are incorporated herein by reference to a prior filing, in accordance with Rule 12b-32 under the Securities Exchange Act of 1934.

(3.1)(i)	Certificate of Incorporation of the Corporation, incorporated by reference to Exhibit (a)(1) of Form N-2 filed with the SEC on April 22, 1997. (File No. 333-25617).
(3.1)(ii)	Certificate of Amendment to the Certificate of Incorporation, as amended, incorporated by reference to Exhibit 3.1 to the Corporation's Current Report on Form 8-K filed with the SEC on November 12, 2019.
(3.1)(iii)	Certificate of Amendment to the Certificate of Incorporation, as amended, incorporated by reference to Exhibit 3.1 to the Corporation's Current Report on Form 8-K filed with the SEC on May 21, 2020.
(3.1)(iv)	By-laws of the Corporation, incorporated by reference to Exhibit 3(ii) to the Corporation's Quarterly Report on Form 10-Q for the period ended September 30, 2016 filed with the SEC on November 2, 2016. (File No. 814-00235).
(4.1)	Specimen certificate of common stock certificate, incorporated by reference to Exhibit (b) of Form N-2 filed with the SEC on April 22, 1997. (File No. 333-25617).
(31.1)	Certification of Principal Executive Officer Pursuant to Rules 13a-14(a)/15d-14(a) under the Securities Exchange Act of 1934, as amended – filed herewith.
(31.2)	Certification of Principal Financial Officer Pursuant to Rules 13a-14(a)/15d-14(a) under the Securities Exchange Act of 1934, as amended – filed herewith.
(32.1)	Certification Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 – Rand Capital Corporation – furnished herewith.

EXHIBIT 31.1

CERTIFICATION
Pursuant to Rules 13a-14(a)/15d-14(a) under the Securities Exchange Act of 1934, as amended

I, Daniel P. Penberthy, certify that:

1.I have reviewed this quarterly report on Form 10-Q of Rand Capital Corporation;

2.Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;

3.Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;

4.The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a)Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;

b)Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c)Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this quarterly report based on such evaluation; and

d)Disclosed in this quarterly report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting;

5.The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a)All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b)Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
